## BRITISH TELECOMMUNICATIONS (BT)

### PROPOSED MODIFICATIONS OF THE LICENCE OF BRITISH TELECOMMUNICATIONS (BT)

The Director General of Telecommunications (the "Director"), in accordance with section 12(2) of the Telecommunications Act 1984 (the "Act"), hereby gives notice that he proposes to make modifications to the licence granted to British Telecommunications ("BT") on 22nd June 1984.

In June this year the Director published a formal notice of proposed modifications to BT's licence to deal with Fair Trading and the control of BT's prices. In response to representations the proposed condition to deal with Fair Trading now differs in some respect from the condition described in the notice published in June.

The principal modification to BT's licence to deal with Fair Trading which the Director now proposes to make and its effects are described in the Schedule below. The Director also proposes to make some minor and consequential modifications for the purposes of the principal proposed modification. The Director proposes that the modifications described below should be made at the same time as those in respect of controls over BT's retail prices, of which he also gave formal notice in June of this year. (The latter remain substantially the same and it is not necessary formally to reconsult on them).

The reasons for the proposed modifications on both Fair Trading and the control of BT's prices are set out in some detail in OFTEL's consultative documents: "Effective Competition: A Framework for Action" (July 1995), "Fair Trading in Telecommunications" (December 1995) and "Pricing of Telecommunications Services from 1997" (June 1996).

#### *Fair Trading Condition*

The telecommunications market is going through a period of fundamental change. Over the last twelve years it has moved from monopoly, through duopoly, to a market with about 150 Public Telecommunications Operator licensees and many other Companies offering a range of different facilities and services. Regulation must evolve to meet the needs of a changing market.

Regulation is generally an imperfect substitute for competitive market forces, which can be hindered rather than encouraged by the maintenance of heavy-handed, backward-looking rules. OFTEL needs to be able to take effective and speedy action against anti-competitive practices, while beginning the essential process of withdrawing from prescriptive rule-making and detailed price control.

BT remains a significant player in many telecommunications markets. BT's licence has many detailed, prescriptive licence conditions. The time is now right, however, for a move towards a regulatory approach which is lighter, in that it imposes fewer *a priori* prescriptive rules, but firmer, in that it puts the onus clearly on operators, and especially on dominant operators, to ensure that they do not engage in anti-competitive behaviour; which therefore imposes on Licensees a condition which prohibits anti-competitive practices; and which enables the Director to secure fair trading without having first to go through the lengthy process of individual licence modification.

That current process is unsatisfactory. BT's licence contains 76 conditions, many of which were drafted in 1983/84, at a time when BT had a monopoly in the provision of telecommunication services. Experience to date has shown that, due to the detailed specific nature of the licence conditions, it is often difficult for the Director to take enforcement action because the behaviour complained of is not covered by the precise terms of the condition.

A licence cannot specify in detail every conceivable type of anti-competitive behaviour. There are gaps in the current conditions in BT's licence. Under the licence, the only practical solution open to the Director when a gap is exposed in the licence is to seek to modify, and hence expand, the licence to ensure that the newly-identified practice is caught in the future. BT's licence has been in a continual process of such modification, and hence expansion, for several years. The system is slow and it does not provide any immediate redress to those who suffer from anti-competitive behaviour.

The Director, therefore, proposes that BT's licence be modified as described in Part I of the Schedule below to include a condition which proscribes certain types of behaviour with appreciable anti-competitive effect. The proposal includes procedures designed to protect the legitimate interests of the Licensee. BT has given its consent under the Act to the licence modification now proposed.

The proposed condition has been written so that it can be included in all significant licences granted under the Telecommunications Act. Once so included it will form a uniform set of rules to apply to the holders of all such licences.

The Director proposed that adoption of the proposed new condition would result in the deletion of 15 conditions from BT's licence as detailed in Part II of the Schedule. The deletions will take effect on 31st December 1996.

#### *Representations*

The Director is required by section 12(2) of the Act to consider any representations or objections which are duly made and not withdrawn. Subject to the present consultation, the Director proposes to make the modifications forthwith.

Representations and comments on, or objections to, the proposed modifications may be made to David Naylor, OFTEL, 50 Ludgate Hill, London EC4M 7JJ (telephone 0171 6348708) no later than 8th September 1996.

Any confidential material should be clearly marked as such and separated out into a confidential annex. All representations or objections received by OFTEL, with the exception of material marked confidential, will be made available for inspection in OFTEL's library. OFTEL encourages interested parties to place the non-confidential parts of their representations, objections and comments on their own Internet pages, in addition to sending OFTEL a hard copy. Comments on this document (if they are relatively short) can also be sent to OFTEL at the following e-mail address: [press.office.oftel@gt.net.gov.uk](mailto:press.office.oftel@gt.net.gov.uk).

Copies of the proposed modifications (showing changes from the condition previously consulted on) can be obtained from Niall Horgan at the above address (telephone 0171 6348862) from whom copies of the proposed licence modifications in respect of the controls on BT's prices are also available.

#### SCHEDULE

##### *Part I: Fair Trading Condition*

##### *The Insertion of a Condition to maintain effective competition*

The proposed condition 18A in BT's licence will, broadly, prohibit any acts or omissions by the Licensee which are connected with the provision of telecommunication services or the running of a telecommunication system which have an adverse effect on competition in the UK except where they would have no appreciable

effect on competition or no effect on competition between users of telecommunication services or persons engaged in commercial activities connected with telecommunications. The condition will prohibit any abuse of a dominant position and the making of anti-competitive agreements which have no countervailing benefits for efficiency and for the consumer.

The condition is modelled on the principles of the EC competition rules, which are well known to BT (and will be familiar to other Licensees).

The condition will prohibit certain types of behaviour, in the same way that other conditions of BT's licence do. The condition will be enforceable using the procedure available to the Director under the Telecommunications Act. However, as an additional safeguard to the Licensee, the condition lays down procedural steps which the Director must follow before enforcing the condition. These include a requirement that he must give full reasons for his decisions and, where requested by the Licensee, consult an advisory body appointed by him.

The conditions will come into force on 31st December 1996 and cease to have effect on 31st July 2001, or earlier in relation to particular behaviour on the coming into force of any enactment which prohibits that behaviour and provides for the Director to enforce the prohibition, enables third parties to claim damages for breach and provides for the imposition of monetary penalties for breach of the prohibition where appropriate.

#### *Part II: Deletion of Conditions*

##### *Outdated Conditions*

With effect from 31st December 1996 it is proposed to delete the following Conditions which will no longer be necessary or will be obsolete.

*Condition 7—Calls made by Emergency Organisations.* The Condition requires BT to have operators to connect calls in circumstances when they cannot be dialled direct. Because it is now possible to dial Emergency Organisations direct, the condition is redundant.

*Condition 28—Arbitration of disputes with customers.* This condition has been superseded by a Code of Practice and standard contract terms providing an inexpensive arbitration procedure in the event of disputes.

*Condition 37—Requirement to provide itemised information.* This now falls under the definition of universal service and there is, therefore, no need for a specific condition.

*Condition 40A—Requirement to provide means of access to the Applicable Systems.* This condition imposes an obligation on BT to provide access to its Applicable Systems, in conformity with certain standards which have now been superseded.

*Condition 41—Statutory testing.* BT no longer undertakes statutory testing.

*Condition 46 (paras 2 to 5)—Determination power in respect of Private Circuits.* These allow the Director to determine prices for Private Circuits. They have never been invoked and are inappropriate at a time when the Director is withdrawing from detailed prescriptive price determination.

*Condition 49—Pre-notification of joint ventures.* This condition requires BT to notify the Director of certain agreements or arrangements. OFTEL learns of any economically significant joint ventures through other clearance procedures.

##### *Conditions covering behaviour which will be covered by the proposed condition.*

It is also proposed to delete the following conditions which deal with practices which, if they have an appreciable adverse effect on competition, would be prohibited by the proposed condition to maintain effective competition.

*Condition 17A—Differential Charging.* This condition was inserted to give BT greater flexibility to reduce call tariffs to fully allocated costs. Special rules on discounting are now no longer appropriate.

*Condition 22—Prohibition of preferential treatment.* This condition requires BT's systems business not to give preferential treatment to any apparatus supply business which it may have.

*Condition 25—Charges for the maintenance of certain exchange lines.* This requires BT to publish charges for the maintenance of certain exchange lines and justify any charge differential by quality of service.

*Condition 35—Prohibition of linked sales.* The condition prohibits linked sales other than in certain limited circumstances.

*Condition 36—Prohibition of certain exclusive dealing arrangements.* This condition prohibits certain exclusivity arrangements in the purchase by BT of telecommunications apparatus.

*Condition 40—Prohibition of non-statutory testing arrangements.* This condition prevents BT from imposing tests on apparatus to be connected to its network, over and above those required for apparatus approval under the provisions of the Act.

*Condition 42—Limitations on integrated wiring situated on Served Premises.* This condition prevents BT from installing its wiring in such a way as to prevent work on other systems installed on the premises.

*Condition 44—Limitations on certain maintenance arrangements.* This condition covers the publication of charges, terms and conditions for maintenance services which the customer can obtain only from BT.

##### *Notice of Application to Vary a Licence to Abstract Water*

Notice is hereby given that an application is being made to the Environment Agency, Thames Region by Thames Water Utilities Ltd, Nugent House, Vastern Road, Reading, Berkshire RG1 8DB to vary the licence (Serial Number 28/39/23/10) to abstract water from underground strata (Chalk) at Harpsden Pumping Station, Harpsden, Berkshire, NGR SU 769 801.

The Variation is to provide the capability for increased abstraction from Harpsden for transfer of water to Sheeplands Pumping Station for blending to reduce nitrate concentrations. This increased abstraction will only take place at times when nitrate levels at Sheeplands are elevated so that blending is required. This requirement is in order to comply with a Drinking Water Inspectorate undertaking in respect of nitrate under the Water Supply (Water Quality) regulations 1989. The variation applied for is to increase the average daily volume from 4.146 million litres per day to 13 million litres per day, the peak daily rate from 6.5 million litres per day to 18 million litres per day and the hourly rate from 172.75 cubic metres per hour to 750 cubic metres per hour. The licence variation will include aggregating the daily and annual volumes with the licence volumes at Sheeplands (licence serial number 28/39/24/20) so there will be no increase in the combined abstraction from the two sources.

A copy of the application and of any map, plan or other document submitted with it may be inspected free of charge at Henley Public Library, Ravenscroft Road at all reasonable hours during the period beginning on Friday, 9th August 1996, and ending on Wednesday, 11th September 1996.

## SOUTHERN WATER SERVICES LIMITED

### DROUGHT ORDERS - EXPLANATORY NOTE

The south-east of England is experiencing a prolonged period of well below average rainfall. Southern Water Services has considered the steps it can take to maintain supplies in West Sussex and, if necessary, to limit demand for non-essential purposes if the dry weather continues into the autumn and winter. Because it must have the necessary powers in place in good time, the Company is therefore making application now to the Secretary of State for the Environment for Drought Orders under the Water Resources Act 1991. Three Orders are being sought, as set out in the formal notices following this explanatory note. The first will allow the Company to continue to abstract from the River Rother at its Hardham Works by lowering the minimum residual flow specified in the abstraction licence. The second will allow the Company to support flows in the lower reach of the River Rother by abstracting water from the nearby River Arun and transferring it by temporary pipelines to discharge near Hardham Weir. If it is necessary to implement the powers in these Orders, the Company may need to restrict the use of water for non-essential purposes as appropriate, in accordance with the terms of the third Order. It is emphasized that the powers are being sought only as a precaution at present, in case there is insufficient rainfall to conserve and restore water resources. The Orders will be implemented only to the extent necessary in the circumstances prevailing from time to time.

## SOUTHERN WATER SERVICES LIMITED

### SECTIONS 73 AND 74, WATER RESOURCES ACT 1991

Notice is hereby given that, because of an exceptional shortage of rain, a serious deficiency of supplies of water is threatened within the water supply area of Southern Water Services Limited ("the Company") served by the River Rother, West Sussex. The Company has an existing licence, no. 10/41/431001, for its Hardham Water Supply Works to abstract 75 megalitres of water per day ("ML/d") from the River Rother upstream of the tidal limit at Hardham Weir near Pulborough, subject to a minimum residual flow in the river of 63.6 ML/d. The Company is therefore applying to the Secretary of State for the Environment for an Order under sections 73 and 74 of the Water Resources Act 1991 to reduce the minimum residual flow specified in Licence no. 10/41/431001 to 33.6 ML/d for a period of 6 months from the date of the Order.

A copy of the plan showing the locations of the abstraction and weir may be inspected during normal office hours at the Company's Water Supply Works at Hardham, London Road, Pulborough for a period of 7 days from the date of publication of this notice.

Objections to the application may be made to the Secretary of State for the Environment, (for the attention of Mr. J. A. S. Wheeler) Water Supply and Regulation Division, Room B463, Romney House, 43 Marsham Street, London SW1 3PY (with a copy to the undersigned please) within 7 days of the publication of this notice.

### SECTIONS 73 AND 74, WATER RESOURCES ACT 1991

Notice is hereby given that, because of an exceptional shortage of rain, a serious deficiency of supplies of water is threatened within the water supply area of Southern Water Services Limited ("the Company") served by the River Rother, West Sussex. The Company has an existing licence for its Hardham Water Supply Works to

abstract 75 megalitres of water per day ("ML/d") from the River Rother upstream of the tidal limit at Hardham Weir near Pulborough, subject to a minimum residual flow in the river of 63.6 ML/d which the Company is applying separately to reduce to 33.6 ML/d.

The Company is therefore applying to the Secretary of State for the Environment for an Order under sections 73 and 74 of the Water Resources Act 1991 to enable the Company for a period of up to 6 months from the date of the Order to abstract up to 30 ML/d from the River Arun at grid reference TQ036181 and to discharge that water into the River Rother at grid reference TQ034178. Water would be transferred to augment the flow downstream of Hardham Weir to 63.6 ML/d or more. The Order will also enable the construction of intake and discharge works, gauges and the necessary transfer pipelines. It will authorise entry on and occupation of land for these purposes.

A copy of the plan showing the locations of the abstraction and discharge points and the route of the transfer pipeline may be inspected during normal office hours at the Company's Water Supply Works at Hardham, London Road, Pulborough for a period of 7 days from the date of publication of this notice.

Objections to the application may be made to the Secretary of State for the Environment, (for the attention of Mr. J. A. S. Wheeler) Water Supply and Regulation Division, Room B463, Romney House, 43 Marsham Street, London SW1 3PY (with a copy to the undersigned please) within 7 days of the publication of this notice.

In pursuance of the provisions of the above Act, the South Buckinghamshire District Council hereby gives formal notice of the designation of a Conservation Area at Dorney, Buckinghamshire. The Council's Planning and Transportation Committee resolved to designate Dorney as a Conservation Area on Wednesday, 31st July 1996. This designation has taken place following consultations undertaken in respect of the South Buckinghamshire District Local Plan, Draft for Public Consultation. The effect of this designation is to designate the Dorney Conservation Area as defined by section 91(1) of the above Act with effect from 31st July 1996.

The boundary of the new Conservation Area is delineated as follows: from Ordnance Survey grid reference SU 9245 7902, the new Conservation Area boundary runs south-east along the western curtilage of Dorney Court to SU 9249 7896. The boundary continues in a northerly direction following the western boundary of Dorney Lodge and Lodge Farm until it meets the eastern boundary of Old Pond House. The boundary then continues east along the drainage culvert that runs parallel to Village Road. Following the western curtilages of The Old Cottage and The Old Brick House, the boundary then runs eastwards following the southern boundaries of the properties on Village Road but then follows the eastern curtilage of "White Heather" and "The Garage" until it meets Village Road again. The boundary then follows the southern side of Village Road. It then moves south to meet the drainage ditch south of Village Road. At SU 9320 7901, the boundary cuts across Common Road by the cattle grid, it then moves back along Village Road until it meets the eastern curtilage of the Old School House.
