### WATER INDUSTRY ACT 1991, SECTION 19(1)(b)

Consumers in the area formerly supplied by North East Water (now Northumbrian Water) who might be affected by improvement work being carried out by Northumbrian Water Limited will wish to be aware of the following information.

The Company has found through its water quality monitoring programme that water supplied has failed on occasion to meet the standard, for certain parameters (normally those associated with occasional occurrences of discoloured water), as required by the Water Supply (Water Quality) Regulations 1989, because of deficiencies in the distribution system. (iii) prioritise and programme the execution of remedial measures. To be completed by 31st March 1999.

(c) Submit to the Secretary of State a statement of the current situation and remedial action taken and required in the zones identified in the Annex to this Schedule. To be completed Annually by 28th February.

### WATER INDUSTRY ACT 1991, SECTION 19(1)(b)

Consumers in the areas of Kent, Sussex, Hampshire and the Isle of Wight supplied by Southern Water Services who might be affected by improvement work being carried out by Southern Water Services Limited will wish to be aware of the following information.

The Company has found through its water quality monitoring programme that water received by consumers in these areas fails on occasion to meet the standards for certain parameters (normally those associated with occasional occurrences of discoloured water) as required by the Water Supply (Water Quality) Regulations 1989, because of deficiencies in the distribution system. These failures do not make the water unsafe to drink at any time.

The Company gave a legally binding undertaking on 14th September 1989 to carry out appropriate remedial work, as the first stage of a long-term programme, to refurbish affected parts of the distribution system.

The Secretary of State for the Environment reviewed this undertaking and concluded that whilst the Company had taken action to discharge its duties in respect of the undertaking, the steps in the undertaking no longer remained the most appropriate for the Company to take to achieve compliance with the standards for the particular parameters.

Consequently the Secretary of State required the Company to give a new undertaking containing appropriate steps to carry out further remedial work as the next stage in the programme of improvement.

**WATER INDUSTRY ACT 1991, SECTION 19(1)(b)**

Consumers in most areas supplied by South East Water Limited who might be affected by improvement work being carried out by the Company will wish to be aware of the following information.

The Company has found through its water quality monitoring programme that water received by consumers in these areas falls on

occasion to meet the standards, for certain parameters (normally those associated with occasional occurrences of discoloured water), as required by the Water Supply (Water Quality) Regulations 1989, because of deficiencies in the distribution system. These failures do not make the water unsafe to drink at any time.

The former Companies of South East Water gave legally binding undertakings in 1990 to carry out appropriate remedial work, as the first stage of a long-term programme, to refurbish affected parts of the distribution system.

The Secretary of State for the Environment reviewed these undertakings and concluded that whilst South East Water had taken action to discharge its duties in respect of the undertakings, the steps in the undertakings no longer remained the most appropriate for the Company to take to achieve compliance with the standards for the particular parameters.

Consequently the Secretary of State required the Company to give a new undertaking containing appropriate steps to carry out further remedial work as the next stage in the programme of improvement.

The Company has given a new undertaking on 5th April 1996 and the Secretary of State has informed the Company that he is satisfied the Company is complying with this new undertaking by serving on them the notice below:

**WATER INDUSTRY ACT 1991, SECTION 19(1)(b)**

The Secretary of State for the Environment:

1. Is satisfied that South East Water Limited "the Company" in supplying water in 32 supply zones has contravened and is likely to do so again its duty to supply wholesome water under section 68(1)(a) of the Water Industry Act 1991 "the Act" and the requirement of regulation 3(3)(c) of the Water Supply (Water Quality) Regulations 1989 that the water supplied should not contain concentrations or values of the parameters in Tables A to C of those Regulations in excess of the prescribed concentrations or values.

2. Has notified the Company on 31st March 1993 he is considering making in relation to the Company an enforcement order under section 18 of the Act.

3. Notes that the Company has on 5th April 1996 given a new undertaking under section 19(1)(b) of the Act to take the following steps specified in the Schedule of Works by the dates shown:

(a) Submit to the Secretary of State the Company's strategy for improving the performance of its distribution system. To be completed by 5th April 1996.

(b) Carry out investigations in the zones identified in the annex to the Schedule to:

(i) identify the extent and nature of contraventions. To be completed by 31st December 1998.

(ii) identify appropriate remedial measures. To be completed by 31st December 1999.

(iii) prioritise and programme the execution of remedial measures. To be completed by 31st December 1999.

(c) Submit to the Secretary of State a statement of the current situation and remedial action taken and required in the zones identified in the annex to this Schedule. To be completed annually by 28th February.

(d) Submit to the Secretary of State the Company's programme for the execution of remedial measures. To be completed annually by 28th February.

(e) Renovate (i.e. replace or reline) a total of 679 kilometres of the distribution system. This renovation is to be carried out according to the priorities identified by the Company's zone action statements and programme referred to in (a), (c) and (d) above and as summarised in the annex to this Schedule. To be completed by 31st March 2000.

(f) Submit a further draft undertaking to the Secretary of State to complete any remaining renovation work consistent with an up to date Company strategy, zone action statements and programme. To be completed by 31st March 1999.

4. Is satisfied that the Company has given and is complying with an undertaking to take all such steps as appear to the Secretary of State for the time being to be appropriate to secure or facilitate compliance with the requirement of regulation 3(3)(c) of the Water Supply (Water Quality) Regulations 1989.
