OFFICE OF TELECOMMUNICATIONS

LOCAL BROADBAND CABLE COMPANIES

Notice of Proposed Modification to Licences Granted to Local Broadband Cable Operators under the Telecommunications Act 1984

The Director General of Telecommunications ("the Director") in accordance with section 12(2) of the Telecommunications Act 1984 ("the Act") hereby gives notice that he proposes to make modifications to all 128 local broadband licences granted under section 7 of the Act which authorise the running of telecommunication systems (referred to in the licences as "Applicable Cabled Systems") each of which systems has been designated by Order under section 9 of the Act as a public telecommunication system. The licences, which were granted during the period beginning on 26th April 1985, and ending on 14th January 1994, relate to the areas specified in the Schedule to this notice.

The principal modification which the Director proposes to make is the substitution of a new Condition, "Public Call Box Services", for the existing Condition 7. The effect of the proposed modification is to:

- (i) remove the existing requirement for the Director to determine, before public call box services can be provided, that such provision will not unduly prejudice the ability of any other person providing such services in the area referred to in the licences as "the Licensed Area" to continue to finance their provision;
- (ii) remove the requirement to install, and provide such services at, public call boxes in accordance with guidelines and instead to require licensees to continue to provide such services until they cease to be provided in accordance with the new Condition;
- (iii) require a notice in the public call boxes concerning call charges, emergency calls and complaints and stating whether incoming calls are available; and
- (iv) remove the restrictions concerning the cessation of call box services and instead to entitle Licensees to cease to provide them after giving notice.

The Director also proposes to make a number of modifications consequential on the principal modification mentioned above.

The Director proposes to make the modifications because he has concluded that the existing restrictions are inhibiting the development of the public call box market and that it is appropriate that the requirement to display consumer information on public call boxes should be a licence obligation. These proposed changes will not affect the obligations of BT and Kingston Communications.

The Director is required by section 12(2) of the Act to consider any representations or objections to the proposed modifications. Following such consideration the Director proposes to make the modifications forthwith.

Representations or objections to the proposed modifications may be made to the Director by 31st January 1997, and should be addressed to Mr. M. Corry at OFTEL, 50 Ludgate Hill, London EC4M 7JJ (tel: 0171 634 8838) from whom a copy of the proposed modifications would be made may be obtained.
