WATER INDUSTRY ACT 1991, SECTION 19(1)(b)

Consumers to the west of Beverley in Yorkshire who might be affected by improvement work being carried out by Yorkshire Water Services Limited at its North Newbald Water Treatment Works will wish to be aware of the following information.

Although the water has at all times been, and remains, safe to drink, the Company has found from its water quality monitoring programme that water supplied from this works has on occasion not met the standard for nitrate (as required by the Water Supply (Water Quality) Regulations 1989).

The Company gave the Secretary of State a legally binding undertaking on 7th November 1995, to install and commission nitrate removal plant at North Newbald Water Treatment Works. However the Company no longer considers this appropriate, and has submitted a new undertaking with a completion date of 31st May 1997, whereby the affected area shall be supplied with water from other sources which comply with the nitrate parameter. The Secretary of State is satisfied that the Company is complying with this new agreement and has informed the Company that he is satisfied by serving on them the notice printed below:

The Secretary of State for the Environment is satisfied that Yorkshire Water Services Limited "the Company" in supplying water from the North Newbald Water Treatment Works has contravened and is likely to do so again its duty to supply wholesome water under section 68(1)(a) of the Water Industry Act 1991, and the requirement of Regulation 3(7) of the Water Supply (Water Quality) Regulations 1989, that water supplied should not contain nitrate at a greater concentration than 50 mg/litre.

Notes that Yorkshire Water Services Limited has on 20th February 1997 given a new undertaking under the provisions of paragraph 2(b) of that undertaking given on 7th November 1995 (Reference No. YO 110) to replace that undertaking and to take the following steps by the dates shown:

- (a) Commission North Cliffe pumping station. To be completed by 30th April 1997.
- (b) Install bypass main between North Cliffe pumping station and North Newbald Service Reservoir. To be completed by 30th April 1997.
- (c) North Newbald works to be taken out of supply and disconnected from the distribution system and not returned to supply unless appropriate treatment and/or blending is installed. To be completed by 30th April 1997.

- (d) Supply the area from alternative sources compliant with the nitrate parameter. To be completed by 30th April 1997.
 (e) Provide to DWI monthly progress reports on the Scheme. Reports to be provided by 30th April 1997 and 31st May 1997.

Is satisfied that Yorkshire Water Services Limited has given and is complying with an undertaking to take all such steps as appear to the Secretary of State for the time to be appropriate to secure or facilitate compliance with the requirement of Regulation 3(3)(c) of the Water Supply (Water Quality) Regulations 1989.

Details of the work being carried out are on the Company's public record which you may inspect at any of its offices open to the public during normal working hours.

You can find out about the work and whether your water supply is affected by telephoning the Water Company on 0274-306063, or writing to them at West Riding House, 67 Albion Street, Leeds LS1 5AA; and quoting DoE undertaking reference number YO 121.

A copy of the undertaking can also be seen at the offices of the Director General of Water Services, City Centre Tower, 7 Hill Street, Birmingham B5 4UA. Issued by the Drinking Water Inspectorate.

LAND COMPENSATION ACT 1973 (AS AMENDED)

Notice of Opening

The Secretary of State for Transport hereby gives notice that the length of highway detailed in the Schedule below was first open to public traffic on 27th March 1997.

Under Part 1 of the Land Compensation Act 1973 (as amended) there is a right to compensation in respect of any depreciation of more than £50 in the value of certain interests in land caused by the use of new or altered highways and resulting from specified physical factors (noise, vibration, smell, fumes, smoke, and artificial lighting and the discharge on to the land in respect of which the claim is made of any solid or liquid substance). Compensation is assessed by reference to prices current at a date 12 months after the highway is first open to public traffic or, in the case of an altered highway, first open to public traffic after completion of the alterations.

Interests qualifying for compensation are specified in section 2 of the above-mentioned Act and there are special provisions relating to claims by mortgagees and persons entitled under trusts or settlements. However, no compensation can be paid under Part 1 where part of a property has been acquired for the purpose of constructing the highway.

Any person entitled to a qualifying interest who considers he has a claim under the said provisions may obtain further information and a claim form from the Highways Agency, Land and Compensation Division (South), Federated House, London Road, Dorking RH4 1SZ.

Claims may be made 12 months after the new or altered highway is first open to public traffic, that is on or after 27th March 1998 (the "first claim day"). Claims should be made within 6 years from this date. However, any person who within the 12 months preceding that date makes a contract for disposing of his interest or (insofar as the interest is in land which is not a dwelling) for granting a tenancy may make a claim within that period and must do so before the interest

is disposed of or the tenancy granted. Compensation in such cases will not be payable before the first claim day.
