St. James's, October 30.

THIS being the Birth-Day of His Royal Highness the Prince of Wales, there was a very numerous and splendid Appearance at Court of the Nobility and other Persons of Distinction: And at Night there were Illuminations, and other Publick Demonstrations of Joy.

Venice, Oct. 23. The Princess of Wallachia, and her two Sons, are on their Way hither from Rome. Yesterday the Emperour's Ambassadour communicated to the Doge, and to all the foreign Ministers here, the News which had been brought to him by an Express of the Surrender of Temeswaer to the Imperialists, and received their Compliments of Congratulation upon it. On this Occasion Te Deum was sung to Day in the Ducal Church of St. Mark, in Presence of the Doge and Senate. 'Tis advised from Rome, that the Pope's Gallies are returned to Civita Vecchia, a great Number of the Men on board being sick, and 300 were left sick at Malta, where the Pope's 4 Men of War still remain. The Neapolitan Gallies, which had been cruising in the Adriatick, for the Security of that Part of the Coasts of that Kingdom, are returned to Naples. Their Crews being extremely diminished by Mortality, 'tis imputed to unwholesome Provisions, and the Undertaker, who victualled them, is seized and imprisoned, in order to be tried; and lest any Shipping from the Levant, by putting into the Ports and setting Men ashore, might bring in contagious Distempers, strict Orders were sent not to suffer any Ships from thence to touch at any Port of the Kingdom of Naples. The Spanish and Portuguese Squadrons had therefore been obliged to put into Messina. As for the Fleet of this Republick, we have had no Advices from it since the 17th of last Month, when it had its Station between Modon and Coron.

Vienna, Oct. 24. Our freshest Advices from the Camp before Temeswaer are of the 16th Instant, three Days after the Capitulation. They tell us, that the Citizens, who were numerous and rich, compelled the Garrison to surrender, that they might preserve their Effects and Families. The Bombs which were thrown into the Town, terrified the Citizens into that Resolution. The Place is much stronger than had been imagined, and might have found the Imperialists Work for

six Weeks longer, in the ordinary Forms of a Siege; which woud not only have cost a very considerable Number of Men, but 'tis certain our Cavalry would in that Time have been reduced to a very bad Condition. Above 20000 Souls have left the Place; in which about 10000 Raskians, most of them very poor, remain.

Genoa, Oct. 27. By a British Ship which is come in here from Port Mahon we have received an Account, that Admiral Baker is returned thither with his Squadron from Tripoli and Tunis. A Man of War, bought in England for the King of Sicily, arrived a few Days ago at Nice, much disabled by a violent Storm in her Voyage. 'Tis advised from Berne, that M. Manning, Resident of the King of Great Britain, arrived there last Week.

Brussels, Nov. 4. The Citizens of Antwerp, notwithstanding all the Ways of Mildness and Perswasion, made use of these two Years past, to induce them to consent to the Payment of the usual Subsidy, still persist in their Denial, upon frivolous Pretences; which does not only shew a bad Example to the other Cities, but also retards the Payment of the Troops assigned on this Province, and occasions other Inconveniencies. On the 29th past Count Kingsegg held a Conference at his own House with the Chancellor, two Counsellors, and the Fiscal of the Council of Brabant, and M. Swartz, Counsellor of the Council of Finances, to concert proper Measures and Expedients for removing these Difficulties, and bringing the Authors of this Disobedience to Reason; the Result of which was to represent to the Marquis de Prié at his Arrival, the Necessity of changing, as soon as possible, the Magistrates of that City, supposing him to be vested with sufficient Power and Authority to that Purpose. The Magistrates of Mechlen have at last submitted to the Order signified to them by the third and last Letter of the present Imperial Minister; and they have, in Consequence thereof, promised to pay their whole Subsidy of 36000 Florins to the Receiver General's Office: Whereupon the March of the two Companies of Archers and Halbardiers they were threatened with, has been countermanded. The Princes d'Alençon, who was twice cast with Costs and Charges, in a Law Suit for 1300000 Florins, which she has carried on several Years against the Marquis de Deynse, has at last, by Appeal, gained, her

her Cause in a grand Revision, from which there is no further Appeal. Letters from Ghent advise, that the Baron d'Oudenhoove, first Eschevin, which is the same as Burgo-Master of that Town, died on the 29th of last Month, and M. Pertelsberg Niculandt has succeeded him in that Employment. The States of Flanders are come to this Town in a Body, to present to the Imperial Minister the Subsidy of one Million of Florins for this current Year; which they have lately granted for the Emperor's Service in these Provinces. Sunday next is appointed a Day of Thanksgiving for the taking of Temeswaer, and the other Successes against the Turks, during this Campaign. This Day at Noon a triple Discharge of the Cannon on the Ramparts of this Place was fired, and the same will be done at Night, in Honour of St. Charles de Borromeo, the Emperor's Patron. We have not yet any certain certain Account when the Marquis de Prié is to come hither from the Hague.

Admiralty-Office, Nov. 1. By Letters from Cadiz of the 6th Instant, O. S. we have certain Advice, that besides the Sally Rover of 8 Guns, taken in May last by Capt. Del Garro in His Majesty's Ship the Hind of 20 Guns, he lately came up with one of their Corsairs of 24 Guns, off Cape Cantine, but five Days out of Sally, which, after an Engagement of two Hours and an half, struck to him, and was not above a Quarter of an Hour in his Possession before she Sunk; the Weather was so bad that all the Moors on board her but 38 were drown'd. We have likewise further Accounts that by the Appearance of His Majesty's Ship the Bridgewater off of Sally, two of their Ships of 16 Guns each, were forced on that Bar, where they stranded.
