BRITISH GAS TRADING LIMITED

Statement of Steps Taken to Achieve the Economic Objective for the Formula Year commencing on 1st April 1997

This statement is made in compliance with clause 7(2) of condition 3 of the Special Conditions of British Gas Trading's Licence as a Gas Supplier, which requires the Licensee to publish a document stating the steps taken by the Licensee to achieve the Economic Objective in relation to the total costs of Regulated Gas

In respect of the Formula Year, as defined in Clause 1(1) of British Gas Trading's Licence Conditions

"Economic Objective" means the objective, which is to be treated as having taken effect on 1st October 1996, of managing the purchases of Regulated Gas (including whether by entering into, varying or terminating contracts, or exercising the rights to call for delivery of Regulated Gas under contracts) in the most economically advantageous way for the Licensee and any Related Person of the Licensee taken together over time as could reasonably have been achieved consistently with the proper protection of the interests of domestic customers of the Licensee in respect of the prices charged for the supply of gas over the period beginning on 1st April 1997 and ending on 31st March 2000, the other terms for such supply, the continuity of such supply and the quality of gas supply services provided

"Regulated Gas" means gas (except gas for consumption in premises owned or occupied by the Licensee or a Related Person of the Licensee) purchased

- (a) by the Licensee under any contract entered into before 1st October 1996,
- (b) by a Related Person of the Licensee under any contract entered into before 1st October 1996 except where the Director General of Gas Supply has determined (after consulting the Licensee and that person) prior to the inclusion of this Condition in the licence that gas purchased under such contract should not be treated as Regulated Gas, or
- (c) by the Licensee or a Related Person of the Licensee under any other contract which, after taking account of any transaction or series of transactions of which that contract forms a part, can properly be regarded as a contract for the purchase of gas
 - (i) for enabling activities within the Gas Shipping and Supply Business to be carried on (except any contract for the acquisition of gas in the operation of a flexibility market within the meaning of condition 3(1)(a) of the standard Conditions of Gas Shippers' Licences),
 - (ii) for delivery over a period exceeding 6 months or, in the case of a contract for the purchase of gas by a Related Person of the Licensee, exceeding 12 months, or
 - (iii) for enabling a particular contract for the sale of gas during a period exceeding 6 months or, in the case of a contract for the sale of gas by a Related Person of the Licensee, exceeding 12 months, to be discharged

"Related Person" means a person who is

- (a) a related person within the meaning of the Standard Conditions,
- (b) carrying on the activity of producing or purchasing gas which is
 - (i) landed in Great Britain,
 - (ii) not consumed in premises owned or occupied by that person, and
- (c) not an Excluded Person

In the Formula Year 1997-98, Related Persons to the Licensee were Accord Energy Limited and Hydrocarbon Resources Limited

1 Total Gas Costs

The total amount paid or payable in respect of Total Gas Costs in the Formula Year consistent with the Economic Objective is £3,847.5 million. This is the aggregate of the amounts relating to the following parts of the definition of Total Gas Costs as given in Clause 1(1) of condition 3 of British Gas Trading's Special Conditions of its Supplier's Licence

- (a) Payments by the Licensee or Related Persons to vendors of Regulated Gas who are not Related Persons
 - (i) payments for Regulated Gas by the Licensee
 - (ii) payments for Regulated Gas by Related Persons,
 - (iii) capacity charges paid by the Licensee
 - (iv) capacity charges paid by Related Persons,
- (b) Prepayments for gas delivered in the Formula Year
 - (i) initial payments,
 - (ii) interest on the initial payment, accrued since 1st April 1997,
- (c) Processing costs to meet the requirements of any public gas transporter
 - (i) payable to non-Related Persons,
 - (ii) payable to Related Persons,
- (d) Payments by the Licensee for the conveyance of Regulated Gas
 - (i) to shippers who are non-Related Persons,
 - (ii) to shippers who are Related Persons,
- (e) Payments for Own Gas based on the Market Value as ascertained by the Oil Taxation Office (OTO) of the Inland Revenue,
- (f) Gas Levy payable to the Secretary of State in the Formula Year,
- (g) Any other appropriate amounts
 - (i) Renegotiation costs,
 - (ii) Other relevant costs

2 British Gas Trading's reasons for forming the opinion that Total Gas Costs are consistent with the Economic Objective

This section explains the main components of each category of costs and summarises the approach and types of actions taken by the Licensee to ensure that Total Gas Costs are consistent with the Economic Objective. The Total Gas Costs relate to total volumes of Regulated Gas purchased in the Formula Year of 17,953 million therms

In considering the management of the gas portfolio it must be recognised that neither the sales of Regulated Gas nor the total gas sales of the Licensee or Related Persons can be known in advance. Furthermore, Regulated Gas comprises a wide range of different sources of gas with different contractual characteristics and counterparties

The Licensee has continuously sought to improve its gas cost base through the ongoing commercial management of the gas purchasing portfolio. Where counterparties have been willing to enter into variations which made sound commercial sense then these deals have been pursued

Annual Take targets have also been set and frequently reviewed to ensure that the scheduling of supplies is the most economically advantageous which can reasonably be expected to be achieved. In practice this judgement has involved the general principle of aiming to minimise the payments for gas over time, whilst taking into account the risks and constraints associated with a wide variety of contractual, operational and seasonal factors

(a) Payments by the Licensee or Related Persons to vendors of Regulated Gas who are not Related Persons

These payments are by far the largest proportion of the Total Gas costs and arise primarily from the Licensee's pre October 1996 gas purchase contracts

Nominations for the delivery of gas from these contracts were scheduled in the most economically advantageous way by considering the targets required for each supply year (1st October to 30th September) within the formula year and then developing the optimal within-supply year scheduling, taking into account, amongst other things, the contracted Take or Pay requirement, the flexibility of deliveries available to the Licensee, the prevailing contract prices, and transportation issues. This was an ongoing and a continuous process with changes to supply schedules being made in response to changes in demand (for example as a result of the weather), supply availability, or market conditions

In addition to the special cases of Contract Renegotiation discussed under (g), contract management has included the agreeing of a wide variety of contractual variations ranging from minor contract changes in which the Licensee has improved the commercial value of purchase contracts through changes to contract terms through to major disputes with sellers in which the Licensee has sought to reduce the size of payments made to sellers

Opportunities have also been pursued via Accord Energy Limited to obtain short term purchases from the Spot Market where this has been the most economic way to meet the Licensee's requirements for gas in the Gas Shipping and Supply Business

The Capacity charge is a mechanistically calculated fixed sum payable to certain offshore suppliers for the service of delivering gas to Bacton at high rates in the winter. This payment is independent of the volume of gas delivered to the Licensee

Payments made under the flexibility mechanism are not included in the Total Gas Cost Notice, but the net quantity of gas purchased in the Formula Year is included in the total volume of Regulated Gas stated above. Under the Special Licence Condition the Net Flexibility Cost (whether positive or negative) is added to the Allowable Total Transportation Cost. During this period, the Licensee was operating under a flexibility mechanism participation policy statement volunteered to Ofgas

(b) *Prepayments for gas delivered in the Formula Year*

These amounts related wholly to the recovery of "Take or Pay" credits from the Licensee's long term gas purchase contracts. The "Take or Pay" contracts were managed during the Formula Year to ensure that credits arising from the prepayment of gas were not lost (irrecoverable "Take or Pay"). In the Formula Year the Licensee was able to recover approximately 1.5 billion therms of "Take or Pay" credits

(c) *Processing costs to meet the requirements of any public gas transporter*

This charge relates to the compression of gas at the Total Oil Marine subterminal at St Fergus, where gas is delivered at pressures lower than those acceptable to Transco for delivery into its pipeline system

(d) *Payments by the Licensee for the conveyance of Regulated Gas*

This charge relates to arrangements made with a third party gas shipper for conveyance of Regulated Gas through a pipeline system not operated by GB plc

(e) *Payments for Own Gas based on the Market Value as ascertained by the Oil Taxation Office (OTO) of the Inland Revenue*

This amount relates to gas delivered to the Licensee from the North and South Morecambe gas fields which are wholly owned by the Licensee's subsidiary Hydrocarbon Resources Limited (HRL)

For both North Morecambe gas and for South Morecambe gas, the market values are defined in the Oil Taxation Act 1975 as the prices determined from price formulae specified in elections made to and accepted by the Inland Revenue

The North Morecambe election was made and accepted prior to the commencement of the Formula Year and could not be revoked by the Licensee or HRL during the Formula Year. The price formula is the contract price in the Gas Sales Agreement between HRL and the Licensee

The South Morecambe election was also made and accepted before the Formula Year, but Centrica was able to take steps to reduce its tax year liability and the payments made by the Licensee for Own Gas by serving a tax price revocation notice. The OTO accepted the revocation and agreed a reduction to a price which would "float" at a level related to the forward spot market. This new price structure came into force from 1st January 1998

(f) *Gas levy payable to the Secretary of State in the Formula Year*

For a period commencing prior to the Formula Year, Centrica lobbied the Government for the removal of the Gas Levy. In the July 1997 budget, the Chancellor of the Exchequer announced that the Gas Levy would be phased out from April 1998. Centrica then pressed the Government further to reduce the Gas Levy as early as possible. In the November 1997 budget, the Chancellor stated that the Gas Levy would be reduced from 4 pence per therm to 3 pence per therm from the beginning of January 1998. This has led to a reduction in the amount of Gas Levy to be paid in the Formula Year

(g) *Any other appropriate amounts*

The first deals on the renegotiation of the long term contracts were announced in December 1996 and since then a number of further deals have been completed. There are significant benefits which arise in the Formula Year

The costs of these renegotiations have been allocated on a year by year basis following the methodology set out by Ofgas in Appendix 2 of the document "1997 Price Control Review

Supply at or below 2,500 therms a year—British Gas Trading" issued by Ofgas in May 1997 and discussed subsequently with Ofgas in September 1998

The other relevant costs included are for the costs of the independent Assessor and for litigation costs and counsel fees incurred during the Formula Year in managing specific disputes in relation to gas purchase contracts

Given the wide range of actions undertaken by the Licensee and Related Persons in each of these areas the Licensee is of the opinion that it has done all that could reasonably be achieved to reduce its purchase costs in line with the Economic Objective (505)

ROYAL BOROUGH OF WINDSOR AND MAIDENHEAD

TOWN AND COUNTRY PLANNING ACT 1990

PLANNING (LISTED BUILDING AND CONSERVATION AREAS) ACT 1990 SECTION 70(8)

Amendment of a Conservation Area

Notice is hereby given pursuant to section 70(8) of the Planning (Listed Buildings and Conservation Areas) Act 1990, that at its Meeting held on 9th November 1998, the Planning and Environment Board of the Council of the Royal Borough of Windsor and Maidenhead resolved to amend the designated boundaries of the Conservation Area at Cookham Dean being an area in the said Royal Borough.

The main changes to note are the inclusion of Cookham Dean Bottom, Dean Croft and High Ridge off Startins Lane and part of Woottens Boatyard. The area now excludes Edelwyn, Swiss Cottage, Walnut House and Pye End off Dean Lane, Slade House, Hillsfield House and Westover off Hills Lane, Hardings Farm, Hardings

Green and land to the north of Cookham Dean C of E Primary School and Lemon Arbor in School Lane. The boundaries are now as follows:

North

The boundary follows the south bank of the River Thames immediately to the west of the old boathouse of Woottens' Boatyard and runs east up to the eastern boundary of Copper Beech Cottage in Stone House Lane.

East

The boundary then turns south running along the centre of the footpath to the east of the boundary to Copper Beech Cottage, to the south-east corner of Badgers Wood where it turns due south up the steep escarpment across 2 tracks before following the line of a track to Winter Hill Road. It then follows a bend in the road to the entrance to the farm where it crosses the road and continues along the line of the footpath. After a short distance, the boundary turns through 90 degrees and goes west along a line at the rear of the farm buildings and Chimneys. On reaching a private track it turns south again past Winter Hill Cottage and Lea Barn before linking up with another footpath. After running along this footpath the boundary turns east along the southern edge of the field north of Round Copse. Another 90 degree turn takes the boundary south running down the eastern edge of fields before coming out in Alleyns Lane. It then goes across the road and runs along the northern boundary of Old Well Cottage and Old Barton before kinking around to run south along the rear of Satis and then turns south-west to run along the boundary of Reddaways before coming onto Dean Lane. From Reddaways the north side of the boundary runs north-west along Dean Lane to the junction with the drive to Langland House including Langland House, to the rear (eastern) boundaries of the houses fronting onto Warners Hill continuing along these boundaries to their junction with Hills Lane. The boundary then runs east along the north side of Hills Lane to the eastern boundary of Hills Cottage where it turns to run south along the length of the eastern boundary of Hills Cottage to its junction with the footpath. It then continues west along the centre of the path to the eastern boundary of Elm Cottage where it continues south to its southern corner. The boundary then runs north-west along the rear boundaries of Elm Cottage and Timber House and then turns west along the rear boundary of High Hedges, Hillcrest, Hope Cottage, Philbies and The Bungalow on Hardings Green. The boundary then runs south along the access to Hardings Farm for the length of the side boundary of Byways before turning west along the rear boundary of Byways and Tars Cottage to its junction with the east side of the field to the rear of Mulberry House, formerly the Vicarage. It runs south-east along the outer edge of this field to its junction with Kennel Lane and then turns west along the south side of Kennel Lane to the eastern side of Meadowcroft, and turns south along the eastern boundary of Meadowcroft, York House and All Seasons to the southern corner of All Seasons.

South

The boundary continues west along the rear boundary of All Seasons, Sterlings, Siskins, Chubbers and Dyars to the junction with the east boundary of High Meadow when it turns south along its rear boundary and then turns west along the western boundary to meet Church Road. It then continues south along the eastern edge of Church Road to the access drive to Woodlands Farm Cottages when it turns north-west across the road to follow the eastern edge of the track running north from Church Road to Bigfrith Lane. At Bigfrith Lane the boundary turns south-west to follow the southern edge of Bigfrith Lane to the western boundary of the Post Office. It then continues along

the outside of the western boundaries of the Post Office, Four Winds, Spindles and Rufus Rest and returns north and then east to enclose the north-eastern boundaries of Rufus Rest and Spindles

West

The boundary runs west along the rear of Oddpots, Over Dean and the Infant School and turns north and then west to follow the rear of properties in School Lane as far as the eastern boundary of Woodwards. Here the boundary turns to run due north along the west side of the boundaries at the rear of Tynron and The Jolly Farmer Public House continuing to meet the footpath running west from The Inn on the Green. From this point the boundary follows the western edge of the open area north of The Inn on the Green continuing to the rear of Hollyhocks and Thornbury Cottage to the junction with Royal Cottages where the boundary turns to follow the west and north boundary of the Cottages. At this point the boundary turns to run north-west along the western edge of the Quarry area to the junction with Kings Lane and continues along the west side of King's Lane to the northern boundary of King's Lodge and Queens Gate. Here it turns east and then south to follow the boundary of these properties to the rear boundaries of Devoncot. It then continues along the rear of the properties in Kings Lane as far as the eastern side of Cliff Cottage where it turns north along the western boundary of Old Pond Cottage to the junction with Dean Lane where it turns east to follow the south side of the road to the junction with Startins Lane. It then turns to follow the western edge of Startins Lane to the entrance to Deancroft where it turns west to enclose the entrance wall and front building line of Deancroft and continues along the boundary wall of the entrance to High Ridge to meet Winter Hill. It then returns along the south side of Winter Hill to the western edge of the footpath running north towards the Thames as far as the old boathouse to Wootten's Boatyard where it turns to enclose the boathouse before returning to the river bank.

The effect of designation is that special attention should be paid to the desirability of preserving or enhancing the character or appearance of the area designated. In particular, controls are applied regarding the demolition of buildings. Certain other controls are also imposed in respect of the display of advertisements and the felling, topping and lopping etc. of trees within the areas. Penalties apply in the event of violations against certain of these controls.

The map showing the Conservation Area, also a written statement describing it and indicating the effect of this designation are deposited at the Town Hall, St Ives Road and Aston House, York Road, Maidenhead, and may be inspected at either of these offices during usual business hours.
