Environmental Protection

The following notice is in substitution for that which appeared on page 5321 of The London Gazette dated Thursday, 13th May 1999

PUBLIC NOTIFICATION OF AN APPLICATION MADE UNDER SECTION 11 OF THE ENVIRONMENTAL PROTECTION ACT 1990, PART 1

INTEGRATED POLLUTION CONTROL

Notice is hereby given that The Rugby Group PLC ("Rugby Cement") has applied to the Environment Agency for a substantial variation to its Integrated Pollution Control (IPC) authorisation to operate a cement manufacturing process at Barrington near Cambridge

Rugby Cement's application involves a proposal for the use of a substitute liquid fuel called Dycal in place of up to 40% of the conventional fuel presently in use namely coal and petcoke. The process already uses up to 40% of a substitute liquid fuel and this will continue. Dycal is a by-product from the manufacture of nylon and comes from a manufacturing process regulated by the Environment Agency. It contains extremely low levels of sulphur and chlorine compared with conventional fuels at Barrington, and contains similar overall levels of metals. It is described more fully in the application. Its suppliers do not regard Dycal as a waste. Dycal is currently in use at Rugby Cement's works at Southam at a daily average of up to 40% substitution. Its use there results in a significant reduction in the overall impact of the cement works on the environment and a similar improvement is expected at Barrington Works.

Rugby Cement proposes to carry out a comprehensive programme of monitoring of the relevant releases from the process and this is expected to take several months. The results of this monitoring will be made available to the public.

A copy of the above application can be inspected by members of the public, free of charge, on the public register held at The Environment Agency, Anglian Region, Kingfisher House, Goldhay Way, Orton Goldhay, Peterborough PE2 5ZR, and South Cambridgeshire District Council, Council Offices, 9-11 Hills Road, Cambridge CB2 1NL.

Members of the public who wish to obtain a copy of the application or any part of it or any other relevant information held on the registers will be able to do so on payment of a reasonable charge to cover the cost of copying either when attending the public register office in person or on written request to the Environment Agency's address above. Representations on the above IPC application should be made in writing to the Environment Agency at the address given above within 28 days from the date of this public notice. Although the Environmental Protection Act 1990 requires representations to be made within 28 days, the Agency will consider representations received beyond the 28 day period but members of the public should note that the Agency is required to determine this application by 27th August 1999 (unless an extension of time is agreed by the operator) and therefore it may not be possible for very late representations to be considered.

Any representations received will be entered on the public registers, unless the person making representations requests in writing that they should not be so entered. If such request is made, the register will only include a statement that representations have been made by the person or organisation that has been the subject of such a request.
