Pipe-lines

Agip (UK) Ltd

OFFSHORE PETROLEUM PRODUCTION AND PIPE-LINES (ASSESSMENT OF ENVIRONMENTAL EFFECTS) REGULATIONS 1999

Pursuant to Regulation 5(8) of the above Regulations, the Secretary of State for Trade and Industry gives notice that, being content that the requirements of the above Regulations have been satisfied, he has, pursuant to Licence P960, granted a consent to Agip (UK) Ltd to the drilling of an exploration well in block 164/28. The consent for well 164/28-A took effect from 11th August 1999.

Block 168/28 lies about 90 kilometres north-west of Lewis in a water depth of about 850 metres. The closest median line (Faroes) is 90 kilometres north of the site. Transboundary effects are considered to be negligible.

The area is relatively unexplored, with the nearest commercial fields (Foinaven and Schiehallion) being 220 kilometres north-east. Three wells are within a 40 kilometre radius, the nearest 17 kilometres distant, cumulative effects are considered negligible for atmospheric emissions, accidental hydrocarbon discharges and mud/cuttings discharges.

The rig is expected to be on site for 56 days, if hydrocarbons are found and the well tested, the rig may remain for a further 10-20 days. Rig selection has not been finalised at the time of ES production, hence anchor number and mooring pattern is not known.

The well is more likely to be oil rather than gas.

The Secretary of State is of the view, having regard to the environmental statement prepared in respect of the well and the comments received from those consulted, that the project is not likely to have a significant effect on the environment. The environmental statement adequately assessed the potential environmental impacts of drilling in a sensitive area and showed that all necessary contingency measures will be put in place.
