Conoco (UK) Ltd

OFFSHORE PETROLEUM PRODUCTION AND PIPE-LINES (ASSESSMENT OF ENVIRONMENTAL EFFECTS) REGULATION 1999

LICENCE P 33—LICENCE HAVING EFFECT UNDER THE PETROLEUM ACT 1998

THE VIXEN FIELD

Pursuant to Regulation 5(8) of the above Regulations, the Secretary of State for Trade and Industry gives notice that, being content that the requirements of the above Regulations have been satisfied, he has, pursuant to Licence P 33, granted a consent to Conoco (UK) Ltd to the getting of petroleum and the construction of installations in relation to the development of the Vixen gasfield. The consent for the Vixen field took effect from 10th November 1999, and shall last until 17th September 2010.

The Vixen development lies in Block 49/17, 55 km northeast of the north Norfolk coast in the southern North Sea.

Conoco propose to develop the Vixen gas accumulation during Spring/Summer 2000 with production expected to commence in Autumn 2000. The development will involved the re-entering of well 49/17-13 and then sidetracking into the reservoir. Water based mud will be used throughout the drilling operations with overboard discharge of drill cuttings, to a maximum of 71 tonnes. If a second well is required to accelerate production, then drill cuttings discharged will be a maximum of 1,107 tonnes. It is very likely that the maximum will not be reached. There will be no well testing and the well will be cleaned up prior to production. Atmospheric emissions will be of an order in keeping with the small size of the development. After drilling, the field will be developed by a subsea installation tied back to the Viking platform via infield pipeline. Produced gas will be exported to the Theddlethorpe Gas Terminal via the Viking Transportation System.

The Secretary of State is of the view, having regards to the environmental statement prepared in respect of the project and the comments received from those consulted, that the project is not likely to have significant effects on the environment and that adequate mitigation of the potential environmental impacts, such as they are, is presented in the environment statement. There is thus no need for any environmental conditions to be imposed. (1012)
