Stroud District Council

PLANNING (LISTED BUILDINGS AND CONSERVATION AREAS) ACT 1990

AMENDMENT OF THE WOTTON-UNDER-EDGE CONSERVATION AREA

Notice is hereby given that Stroud District Council has amended the Wotton-under-Edge Conservation Area.
Maps of the revised area have been deposited at the offices of Stroud District Council, Ebley Mill, Westward Road, Stroud, and may be inspected there during normal office hours.
The purpose of the designation is to preserve and enhance the character and appearance of this Area of Special Architectural or Historic Interest and to ensure that special regard is paid to the architectural and visual qualities of the designated area as a whole when proposals for development are under construction. In accordance with sections 211 and 212 of the Town and Country Planning Act 1990, and section 74 of the Planning (Listed Buildings and Conservation Areas) Act 1990, respectively, subject to certain exceptions, notice has to be given to the Local Planning Authority in respect of proposals to remove, uproot or destroy any trees in the designated area and consent is required for the demolition of all buildings in the designated area.
A brief summary of the designated area is as follows:
The amendments include three additions and three deletions.
The additions are:
The area of grass and car park to the rear of the Old Bluecoat School, Culverhay, because of its historical relationship in terms of rear access to the former school and cottages in Culverhay.
The derelict mill building at the east end of Manor Lane. This is included as it is an historic building which conforms to the identified character of the area.
The school site adjacent to The Chipping. This is a large site requiring enhancement, the nature of which will have an impact on the character of the Conservation Area.
The deletions are:
The 20th Century development to the south of Gloucester Street will be removed as it has no architectural or historic interest, in Conservation Area terms, and is unlikely to be redeveloped in the foreseeable future.
The 20th Century sheltered housing in Haw Street will be deleted as it does not conform to the character of the Conservation Area.
Land in Clarence Road will be deleted as the original boundary line of the Conservation Area is no longer definitive due to redevelopment of the area.

WATER RESOURCES ACT 1991, SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995)

NOTICE OF APPLICATION FOR CONSENT FOR THE PURPOSES OF SECTION 88

Notice is hereby given in accordance with Schedule 10 of the above Act that an application has been made to the Environment Agency by Southern Water Services Limited for consent to discharge sewage effluents from Worthing Wastewater Treatment Works (WWTW) into the English Channel. The details of these discharges are given below.
In order to comply with the European Union's Urban Waste Water Treatment Directive, Southern Water Services Limited are required, by 1st October 2001, to upgrade the treatment process of the WWTW from the existing chemically assisted primary settlement (CAPS) to secondary treatment. This improvement scheme will result in the making of the following discharges.

From the date of the commissioning of the new works:

Discharge 1: a dry weather flow of 30,240 cubic metres per day (up to a maximum of 71,712 cubic metres per day/830 litres per second) of secondary treated sewage effluent via the WWTW's existing long sea outfall, to a point 4·5 kilometres offshore, at National Grid Reference TV 1736 9858.
Discharge 2: a rainfall dependant volume of screened storm sewage consisting of flows between 830 and 2,290 litres per second via the same outlet as Discharge 1 (storm discharges of flows in excess of this figure are already permitted via a different outlet by the site's existing consent).

With immediate effect:

Discharge 3: sewage in an emergency, via an existing outfall at National Grid Reference TQ 1716 0208, when the WWTW's inlet and/or the long sea outfall (final effluent) pumps are inoperative due to electro-mechanical failure outside the control of Southern Water Services.
Discharge 4: settled sewage in an emergency, via the same long sea outfall as Discharges 1 and 2, at National Grid Ref. TV 1736 9858, when the WWTW's intermediate pumping station is inoperative due to electro-mechanical failure outside the control of Southern Water Services.
With regard to Discharges 3 and 4, stand-by pumps, dual power supply, storage facilities, alarm/telemetry systems, and screens will be provided to reduce the frequency, duration and effect of the discharge, should it take place, to a minimum.

Should this application be granted the WWTW's existing consent for chemically assisted primary settled sewage effluent will be revoked.
Any person who wishes to make representations about the application should do so in writing to the Water Quality Consenting Officer at the Agency's offices at Saxon House, Little High Street, Worthing, West Sussex BN11 1DH, during the period 3rd December 1999 to 13th January 2000, quoting Ref. A.1107/S/CH/99.
The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of this application and any representations made by interested parties, it is decided that consent can be granted, then conditions will be imposed to ensure that these aims of the Agency regarding water quality are met. A copy of the application may be inspected, free of charge, during normal office hours at the Agency's offices at the above address and/or Guildbourne House, Chatsworth Road, Worthing.
