Electricity**NOTICE UNDER SECTION 11(2) OF THE ELECTRICITY ACT 1989**

The Director General of Electricity Supply (herein referred to as "the Director") pursuant to section 11(2) of the Electricity Act 1989 (herein referred to as "the Act") hereby gives notice as follows:

(a) He proposes to modify the conditions of all the electricity supply licences which have been granted under section 6(2) of the Act (herein referred to as "the Licences") by inserting a new Condition 33A. (Energy efficiency standards of performance).

(b) He proposes this modification to allow energy efficiency standards to be set for the holders of the Licences (i.e. second tier electricity suppliers) (herein referred to as "the Licensees") comparable to those which can be set under section 41 of the Act for public electricity suppliers, and under section 33BB of the Gas Act for gas suppliers. By virtue of Condition 28 of the Licences, the proposed Condition 33A would apply when a Designated Supply Notice has been given, i.e. a Licensee has given notice of its intention to supply domestic customers or business customers with an annual electricity consumption of less than 12,000kWh.

(c) In summary, the effect of the modification is:

(i) to enable the Director, after consultation with the Licensees and others, to determine such standards of performance in connection with the promotion of the efficient use of electricity by Designated Customers as, in his opinion, ought to be achieved by each of the Licensees.

(ii) to require the Licensees, as directed by the Director, to inform their Designated Customers of any standards determined under the proposed Condition and their performance against those standards;

(iii) to require the Licensees to act in a manner calculated to achieve any standards determined under the proposed Condition;

(iv) to require the Licensees to provide information, as directed, to the Director on their performance against such standards; and

(v) to allow the Director to publish such information.

A copy of the proposed modification can be obtained (free of charge) direct from the Office of Gas and Electricity Markets (Ofgem) or through the Ofgem Website (<http://www.ofgem.gov.uk>). Any representations or objections to the proposed modification may be made on or before 24th March 2000 to the Director at Ofgem, Stockley House, 130 Wilton Road, London SW1V 1LQ, marked for the attention of Mr. C. Barclay.

A. J. Boorman, Deputy Director General, Customers and Supply

Authorised on behalf of the Director

25th February 2000. (525)

NOTICE UNDER SECTION 11(2) OF THE ELECTRICITY ACT 1989

The Director General of Electricity Supply ("the Director"), pursuant to section 11 of the Electricity Act 1989 ("the Act"), hereby gives notice as follows:

(a) In relation to each of the licences which have been granted under section 6(1)(c) of the Act in respect of an authorised area in England and Wales (hereinafter a "PES licence"), he proposes to make modifications as follows:

(i) In relation to the PES licences issued to: Eastern Electricity plc, Manweb plc, Northern Electricity plc, PowerGen plc, Norweb plc, Seeboard plc, Southern Electric plc and Yorkshire Electricity Group

plc, he proposes to make modifications to Conditions 3, 3A, 3B, 3D, 3E, 3G and Schedule 3 (being part of the charge restriction conditions as defined in a PES licence);

(ii) In relation to the PES licences issued to: London Electricity plc, Midlands Electricity plc, South Wales Electricity plc and South Western Electricity plc, he proposes to make modifications to Conditions 3A, 3B, 3C, 3E, 29A, 29B, 29C, 29E and Schedules 3A and 3B (being part of the charge restriction conditions as defined in a PES licence);

(iii) In relation to the PES licences issued to: Eastern Electricity plc, Manweb plc, Northern Electricity plc, PowerGen plc, Norweb plc, Seeboard plc, Southern Electric plc and Yorkshire Electricity Group plc, he proposes to make modifications to Conditions 1 and 11D, to delete Condition 12, and to add new Conditions 12, 12A and 12B; and

(iv) In relation to the PES licences issued to: London Electricity plc, Midlands Electricity plc, South Wales Electricity plc and South Western Electricity plc, he proposes to make modifications to Conditions 1, 5, 5A, 5B, 5D, 14, 35, 35A, 35B, and 35D and to add a new Condition 35E.

(b) The reasons why he proposes to make the modifications and their effect were published by the Director in three documents: the December 1999 document *Review of Public Electricity Suppliers 1998 to 2000 Distribution Price Control Review Final Proposals* (which set out proposals for the price control regime to apply to PES' distribution businesses over the next five years); the December 1999 document *Review of Public Electricity Suppliers 1998 to 2000 Supply Price Control Review Final Proposals* (which set out proposals to restrict the maximum prices charged by PESs for their two main domestic tariffs); and the October 1999 document *Review of Public Electricity Suppliers 1998 to 2000 Distribution Price Control Review* (which confirmed the separation proposals for the distribution business).

(c) In summary, the effect of the licence modifications relevant to PES distribution businesses will be to amend the charge restriction conditions so that:

(i) for the year commencing 1st April 2000, allowed revenue must fall, in comparison with allowed revenue for the year commencing 1st April 1999, by the following percentage in real terms: being 28 per cent for Eastern Electricity plc, 23 per cent for East Midlands Electricity plc, 27 per cent for London Electricity plc, 21 per cent for Manweb plc, 23 per cent for Midlands Electricity plc, 23 per cent for Northern Electric plc, 27 per cent for Norweb plc, 33 per cent for Seeboard plc, 19 per cent for Southern Electric plc, 26 per cent for South Wales Electricity plc, 20 per cent for South Western Electricity plc, 22 per cent for Yorkshire Electricity Group plc;

(ii) for subsequent years, the calculation of the maximum average charge per unit distributed shall contain an X value of 3 per cent per year in real terms;

(iii) from 1st April 2000 the maximum average charge per unit distributed shall fall to reflect the reduction in relevant costs, excluding those of a non-recurring nature, due to the provision of meter provision services and meter operation services by persons other than the Licensee, to customers who took meter provision services and meter operation services from the Licensee at 31st March 2000;

(iv) the DMS set up costs allowance shall be extended for a further two years, from 2002-03 to 2004-05;

(v) from 1st April 2000 the amount of excluded service revenue receivable in respect of domestic customers using prepayment meters shall be capped in nominal terms at £15 per year per customer for customers in PES authorised areas other than Eastern. In Eastern's authorised area, the maximum will be £11.22 per customer per year; and

(vi) from 1st April 2000 the amount of excluded service revenue receivable in respect of the transport of EHV units shall not exceed that assumed by the Director in formulating allowed revenue, subject to such adjustments as may be appropriate.

(d) In summary, the effect of the licence modifications relevant to PES supply businesses will be to amend the charge restriction conditions so that from 1st April 2000:

(i) the control of charges for the supply of electricity will apply only to two tariffs in each PES area, the Standard Domestic and Domestic Economy 7 tariffs (together the "Restricted Tariffs"), and to the prepayment meter surcharge as described below;

(ii) PESs shall be obliged to continue to offer these tariffs to all domestic customers;

(iii) the maximum average price to be charged for the Restricted Tariffs shall be calculated by reference to the sum of a base allowance for generation, supply business and certain transmission costs, and relevant published charges for distribution and transmission use of system costs, the fossil fuel levy, and an allowed margin on turnover of 1.5 per cent;

(iii) the maximum surcharge to be applied to domestic customers using prepayment meters will be capped at £15 per customer per year for customers in PES authorised areas other than of Eastern Electricity plc. In Eastern's authorised area, the maximum will be £11.22 per customer per year; and

(iv) PESs shall be obliged to provide statements to the Director summarising the costs of purchasing electricity.

(e) In summary, the effect of the licence modifications relevant to the separation of the PES distribution from the PES supply business will be: (i) that information relating to the PES distribution business is kept confidential (except in clearly defined circumstances) and to effect full managerial and operational independence of the PES distribution business from the PES supply business;

(ii) that the PES will appoint a compliance officer to monitor the separation process and to ensure separation is effected;

(iii) that metering services presently provided by the PES are split between the PES supply and PES distribution businesses so that each PES distribution business will be obliged to provide and operate meters on request. Each PES supply business must provide, on a non-discriminatory basis, meter reading, data processing and data aggregation on request to suppliers operating in its area;

(iv) that access by the PES supply business to confidential information, which accrues from compliance with metering obligations and which is about the businesses of other suppliers, is restricted.

Copies of the proposals documents and of the proposed licence modifications can be obtained (free of charge) from Ofgem's library at the address below.

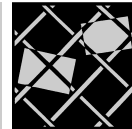

Any representations or objections to the proposed modifications may be made on or before 27th March 2000, to the Director, Ofgem, Stockley House, 130 Wilton Road, London SW1V 1LQ.
