WATER RESOURCES ACT 1991 (AS AMENDED BY THE ENVIRONMENT ACT 1995)

NOTICE OF APPLICATION FOR CONSENT UNDER SCHEDULE 10

Notice is hereby given, in accordance with Schedule 10 of the Water Resources Act 1991 (as amended by the Environment Act 1995), that the following applications (Ref. 244/0986 and 245/1248) have been made to the Environment Agency, North East Region.

Northumbrian Water Limited has applied for temporary relaxation of the limits in the consents to discharge biologically treated sewage from sewage treatment works (STWs) at Lanchester, County Durham and at Sherburn, County Durham. The discharges to which the applications relate enter Smallhope Burn at NGR NZ 1736 4661 and Sherburn House Beck at NZ 3165 4183, respectively.

Northumbrian Water Limted are presently constructing new STWs at both sides to achieve compliance with more rigorous standards, which come into force on 1st April 2001. The design of the new STWs includes reed-beds as a final treatment stage and temporary relaxation is sought of the new standards to allow the reed-beds to become established over the summer growing season. It is likely that the relaxed new standards would still represent a considerable tightening of the standards which are currently in force.

Copies of the applications may be inspected, free of charge, at all reasonable hours at the Agency's Northumbria Area Office, Tyneside House, Skinnerburn Road, Newcastle Business Park, Newcastle upon Tyne, at Lanchester Library, Newbiggen Lane, Lanchester, County Durham or at Durham Library, South Street, Durham.

Anyone who wishes to make representation about either application should do so in writing to the Environment Planning Manager, Environment Agency, Tyneside House, Skinnerburn Road, Newcastle Business Park, Newcastle upon Tyne NE4 7AR, quoting Ref. 244/0986 (Lanchester) or 245/1248 (Sherburn) no later than 28th March 2001.

NOTICE OF APPLICATION FOR CONSENT FOR THE PURPOSES OF SECTION 88

Notice is hereby given, in accordance with Schedule 10 of the Water Resources Act 1991, that an application has been made to the Environment Agency by Brett Aggregates Limited, for consent to discharge 420 cubic metres per day of trade effluent from Southall Farm, Wennington Road, Rainham, Essex, to a tributary of the common sewer between National Grid Ref. TQ 5365/8170 and TQ 5383/8182.

Details of the proposal are contained in the register held by the Agency at its office in Reading. The register is held at Kings Meadow House, Kings Meadow Road, Reading, Berkshire, and may be inspected, free of charge, from 9.30 a.m. to 4.30 p.m. Monday to Friday inclusive. Inquiries by telephone (direct line (01707) 632657) may be made between the hours of 9 a.m. and 5 p.m. Monday to Friday inclusive.

Any person who wishes to make representations or objections with respect to the application should do so, in writing, to the North East Area Water Quality Consenting Team Leader, Environment Agency, Thames Region, Apollo Court, 2 Bishops Square, Hatfield Business Park, Hertfordshire AL10 9PW, quoting N/WR0255, not later than 6 weeks after the date of publications 28th March 2001.

If you wish to discuss this matter please contact Ian Smith, on Hatfield (01707) 632657.

The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of this application and any representations made by interested parties, it is decided that consent can be given, then conditions will be imposed to ensure that the effluent receives treatment before discharge to the receiving waters so that the above aims are met.

Electricity

The National Grid Company plc

NOTICE UNDER SECTION 11(2) OF THE ELECTRICITY ACT 1989

The Gas and Electricity Markets Authority ("the Authority") hereby gives notice, pursuant to section 11(2) of the Electricity Act 1989 ("the Act") as follows:
1. The Authority proposes to modify conditions of the transmission licence granted to The National Grid Company plc ("NGC") under section 6(1)(b) of the Act by amending Licence Conditions 1, 1A, 1B, 4, 4A, 4B, 4C, 4E and 4F and Schedule 3 and introducing new conditions to have the effect specified below.
2. The reasons why the Authority proposes to make these licence modifications and their effect were published by the Authority in three documents:

(a) September 2000—The transmission price control review of the National Grid Company from 2001: transmission asset owner—Final proposals ("the September 2000 Document"); and
(b) August 2000—Initial proposals for NGC's system operator incentive scheme under NETA—A consultation document and proposed licence modifications ("the August 2000 Document"); and
(c) December 2000—NGC system operator price control and incentives schemes under NETA—Final proposals ("the December 2000 Document").

3. In summary, the effect of the proposed licence modifications is as follows:

(a) to effect a split of the transmission business price control between the transmission asset owner ("TO") and system operator ("SO") functions of NGC (see the September 2000 Document, the August 2000 Document and the December 2000 Document);
(b) to introduce new price controls with effect from 1st April 2001 (see the September 2000 Document and the December 2000 Document);
(c) to introduce new incentives for the SO as part of the New Electricity Trading Arrangements ("NETA") (see August 2000 Document and December 2000 Document);
(d) to introduce new conditions on Financial Ringfencing (see September 2000 Document).

4. Currently, all the internal costs of NGC's transmission business are regulated by a single price control covering both the SO and TO role. In addition to the current price control, there are a series of incentive schemes on NGC relating to the external SO costs (e.g. contracts for ancillary services) that are incurred in operating the electricity system. Under each of these incentive schemes, a target level of costs is set. If actual costs are above/below the target, NGC pays/keeps a proportion of any difference.
5. Under the current arrangements, NGC has four separate incentive schemes:

transmission services uplift (consisting of the cost of transmission constraints, response and reserve, black start and Ancillary Services Businessoverheads);

energy uplift (consisting of a number of costs including those associated with errors in demand forecasts, plant failures and shortfalls);

reactive power uplift (covering the costs of purchasing ancillary services required to maintain the security of the transmission system); and

the volume of transmission losses at a fixed reference price.

6. The existing incentive schemes on external costs terminate when NETA is introduced. They cannot be extended when NETA comes in without being notified.
7. Ofgem has proposed in the documents specified in paragraph 2 above that it would be desirable to limit the scope of the transmission business price control to the TO function, and combine the incentive on the SO costs (both internal and external) under one umbrella given the strong interactions between SO internal and external costs. The new SO incentive is designed to allow NGC to optimise the combination of external and internal costs in its role in operating the transmission system.
8. A copy of the proposed licence modifications and other documents referred to in this notice are available (free of charge) from the Ofgem Library (telephone 020-7901 1600) or on the Ofgem website (www.ofgem.gov.uk).
9. Any representations or objections to the proposed licence modifications may be made on or before 14th March 2001, to Justin Coombs, Director, Transportation Regulation, Ofgem, 9 Millbank, London SW1P 3GE, or by e-mail: justin.coombs@ofgem.gov.uk
