### *The National Grid Company plc*

**NOTICE UNDER SECTION 11(2) OF THE ELECTRICITY ACT 1989**

The Gas and Electricity Markets Authority ("the Authority") hereby gives notice pursuant to section 11(2) of the Electricity Act 1989 ("the Act") as follows:

1. On Tuesday, 20th February 2001, the Authority issued proposals to modify conditions of the transmission licence granted to The National Grid Company plc ("NGC") under section 6(1)(b) of the Act by amending Licence Conditions 1, 1A, 1B, 4, 4A, 4B, 4C, 4E and 4F and Schedule 3 and introducing new conditions 4AA, 19-24 and Schedule 3A.

2. The reasons why the Authority proposed to make these licence modifications and their effect were published by the Authority in four documents:

- (a) September 2000—The transmission price control review of the National Grid Company from 2001: transmission asset owner—Final proposals ("the September 2000 Document"); and
- (b) August 2000—Initial proposals for NGC's system operator incentive scheme under NETA—A consultation document and proposed licence modifications ("the August 2000 Document"); and
- (c) December 2000—NGC system operator price control and incentives schemes under NETA—Final proposals ("the December 2000 Document"); and

- (d) February 2001—The results of consultation papers on: Manifest Errors in the Balancing Mechanism Transactions, October 2000; and Special Provisions for Computing Systems failures, November 2000; and The Treatment of Black Start Events Under the BSC, December 2000—Conclusions paper ("the February 2001 document").

3. The period for responses to this consultation closed on Friday, 19th March 2001. The Authority, having received no responses or objections in relation to the proposed modification and NGC having consented to the making of the modification in writing, the Authority modified the licence by incorporation of the modification on 22nd March 2001. The modifications were to take effect in accordance with their terms.

4. On 29th March 2001, the Authority was advised of an error within Condition 4F sub-paragraph 9 by NGC. The error also appears in the LC 10 Statements approved by the Authority in respect of the period from 27th March 2001—31st March 2001. The relevant provision in the Condition does not achieve the result intended by the Authority and NGC as a result of the form in which certain data is provided to NGC and the systems developed to process it.

5. In light of this information, the Authority proposes to modify Condition 4F sub-paragraph (9) and it is the Authority's intention that such amendment will be deemed to take effect from 27th March 2001.

6. Licence Condition 4F sub-paragraph (9) states:

$$IBC_t = CSOBM_t + BSCC_t + \sum_i (TL_i [TLRP_i]) - \sum_i (TQEI_i [NIRP_i]) - RT_{-OM_t}$$

The Authority proposes to amend it to say:

$$IBC_i = CSOBM_i + BSCC_i + \sum_j (TL_j [TLRP_j]) + \sum_j (TQEI_j [NIRP_j]) - RT_i - OM_i$$

The full extent of the modification is to amend the subtraction sign which appears before TQEI<sub>j</sub> and replace it with an addition sign.

The intention of this term is to adjust NGC's incentivised costs to account for the cost of meeting participants energy imbalance. Thus, if NGC has to accept offers in the balancing mechanism then those costs should be deducted whereas if it has to accept bids those costs should be added. However, the definition of TQEI in the Balancing and Settlement Code (it will be negative rather than positive when NGC has to purchase offers) means that, as currently drafted, Licence Condition 4F subparagraph (9) achieves exactly the opposite effect. The proposed amendment will correct this.

7. The Authority approved the form only of a revised LC 10 Statements in respect of the period 1st April 2001 to 31st March 2001, on Friday, 30th March 2001, which is based on the proposed amended version of the licence. On 30th March 2001, NGC wrote to Ofgem and advised that it intended to re-issue the LC 10 Statements in respect of the period 27th March 2001 to 31st March 2001, to correct the error referred to in paragraph 6 above. NGC advised that the re-issued LC 10 Statements would be based on the proposed amended version of the licence. The Authority wrote to NGC on Monday, 2 April 2001, noting that NGC intended to re-issue the LC 10 Statements in respect of the period from 27th March 2001 to 31st March 2001, as this would deliver the outcome intended by the proposed amended version of the licence and raised no objection to this.

8. A copy of the proposed licence modifications and other documents referred to in this notice are available (free of charge) from the Ofgem Library telephone 020 7901 1600 or on the Ofgem website [www.ofgem.gov.uk](http://www.ofgem.gov.uk). (494)
