### **TOWN AND COUNTRY PLANNING ACT 1990 (AS AMENDED)**

#### **PLANNING (LISTED BUILDINGS AND CONSERVATION AREAS) ACT 1990 (AS AMENDED)**

Notice is hereby given, that the Council of the London Borough of Lambeth, in pursuance of powers under section 70 of the Planning (Listed Buildings and Conservation Areas) Act 1990 (as amended), made the following designations of new Conservation Areas within the London Borough of Lambeth:

On 26 November 2001:

(i) The new Vauxhall Gardens Conservation Area (CA No 56) – SE11. This area includes Glasshouse Walk: Nos 5-11 and Jameson House; Vauxhall Walk: 92-112, 79-97, 139, Cromwell House, Shaftesbury House, Kennedy House and Graphite Square; Tinworth Street: Nos 2-16; Newport Street: Gallery (former Ragged School) No 22; Black Prince Road: 49-71 (shops and pubs), 125-133 (car park and railway arches), Arden House, Deacon House, Sullivan House and Lilac Place; Vauxhall Street: Nos 20-40, Baddeley House, Bland House and Vauxhall Primary School; Tyers Street: 64, Arne House, Arrowsmith House and Mountain House; Jonathon Street: Nos 1-8 and Burchell House. The following Public Houses are also included: George & Dragon, Jolly Gardner, Queens Head, Queen Anne, John Bull and Lavender restaurant.

(ii) The new Albert Embankment Conservation Area (CA No 57) – SE1 which includes Albert Embankment: No 8 (London Fire Brigade HQ), Nos 35, 36 and 37 (Rivers Bar and Vintage House) and No 85; Lambeth High Street: LFB Workshops and No 44 (The Windmill PH); Black Prince Road: Southbank House, Albert Embankment Gardens, White Hart Dock and Lacks Dock and the eastern half of Vauxhall Bridge.

On 11 December 2001:

(i) The new Sibella Road Conservation Area (CA No 58) – SW4 which includes: Sibella Road: Nos 1-35 (odds and evens); Chelsham Road: (all except for Chelsham House); Gauden Road: Nos 1-41 (odds and evens), 57-67 (odds), 102-118 (evens); Larkhall Rise: 1-63 (odds); Union Road: Nos 15-71 (odds), Nos 77-93 (odds) and 93A; Bromfelde Road: all except Romayne House.

The objective of designation is to preserve or enhance the character or appearance of areas of special architectural or historic interest, as distinct from individual buildings, to control developments in such areas and to stimulate and encourage measures to improve the environment. The primary effects of conservation area status are that the demolition of most buildings is brought within conservation area control and consent must first be sought from the planning authority; that it becomes an offence to cut down, lop or carry out any other works to certain trees within the area without proper consent from the planning authority; and that planning applications for development which, in the opinion of the planning authority, would affect the character or appearance of the conservation area, must be advertised. A plan showing the areas subject to these designations is available for public inspection at the Town Planning Advice Centre, 10 Acre Lane, Brixton, London SW2 5LL (opening hours 9.30 am to 4.30 pm). **Water Industry****Ofwat****WATER INDUSTRY ACT 1991, SECTION 13****PROPOSALS BY THE DIRECTOR GENERAL OF WATER SERVICES (THE DIRECTOR) FOR THE MODIFICATION OF THE CONDITIONS OF APPOINTMENT OF SOUTHERN WATER SERVICES**

The process:

Ofwat is required to consult on the proposed modifications to Southern Water's conditions of appointment. This section 13 notice seeks responses to the proposed modifications described below and invites views on the general issues associated with the type of structure proposed. Any representations or objections must be sent in writing to Keith Mason, Director of Regulatory Finance at Ofwat, Centre City Tower, 7 Hill Street, Birmingham B54UA (fax 0121 625 3609 or e-mail: keith.mason@ofwat.gsi.gov.uk

<mailto:keith.mason@ofwat.gsi.gov.uk>) to be received no later than 5.00 pm on Friday 25 January 2002. Please quote Ref LEG/34/1/6.

Description of the modifications and the reasons for them:

Scottish Power Plc (Scottish Power) announced on 7 November 2001, that it has decided to pursue a capital restructuring of its subsidiary Southern Water Services Ltd (Southern Water). Subject to market and other conditions, this will result in approximately £1.9 billion of ring-fenced borrowings in Southern Water. This would represent a significant increase in the gearing of Southern Water. Its indebtedness will rise to around 90% as measured against its regulatory capital value (£2.1 billion at 31 March 2001). Scottish Power believes that the proposed restructuring will allow Southern Water to reduce its cost of finance. Scottish Power will retain full ownership of Southern Water and believe that through this capital structure, the return on its equity will improve.

Southern Water accepted a number of modifications to its licence in 1995 following its acquisition by Scottish Power. Those modifications strengthened the ring fence between Southern Water and its parent and associated Companies. Since that time a number of transactions, such as the acquisition of Mid Kent Holdings by Swan Holdings and the acquisition of Dwr Cymru (Welsh Water) by Glas Cymru, have resulted in a new standard of ring fencing licence provisions. Ofwat invites views as to whether the proposed additional modifications (which bring Southern Water's licence up to the current standard) are appropriate and sufficient to protect customers from taking on additional risks.

Southern Water has agreed to the licence modifications proposed by Ofwat.

Financing of Southern Water's functions

Ofwat must be satisfied that under the new proposals there is a reasonable expectation that Southern Water remains a financially viable and stable business, capable of financing its operations and capital programmes in the future. Ofwat is concerned to ensure that such structures do not threaten an efficient water Company's ability to finance its functions now and in the future.

The Director proposes to modify the licence of Southern Water to require it to maintain an investment grade corporate credit rating. Maintenance of an investment grade corporate credit rating should assist the Company in its ability to raise capital in the future. In addition it will provide the Director with an early signal if the Company's ability to raise future finance is at risk.

Ring-fencing of the appointed business

The Director wishes to ensure that Southern Water's licensed business is ring fenced from other activities, which may be carried out by Scottish Power. Southern Water must not, whether through its involvement in those activities or by its Dividend policy, put at risk its ability to carry out its functions as a water and sewerage undertaker and to finance them.

The Director proposes that the regulated business should be further protected by a licence condition that prohibits the Company, without the prior consent of the Director, from continuing or assuming any commitment which includes a "cross default obligation" (whereby the Company's financial liabilities are increased or accelerated because of default elsewhere in the group).

Southern Water is required to conduct its core businesses as if it were substantially the sole business undertaken and a separate public limited Company. The board of the water Company is required to comply with the Principles of Good Governance and Code of Best Practice (or any successor document) as approved for the purposes of the Listing Rules of the UK Listing Authority.

The licence of Southern Water already includes this requirement but to further strengthen corporate governance, the Director proposes that the Company should be required to maintain a minimum of three non-executive Directors independent of the Scottish Power Group.

Maintenance of comparators with other water and sewerage undertakers. We consider that the performance of Southern Water's core business should be transparent to regulators, peers and customers. For our part its performance in terms of efficiency and customer service will be assessed in the same way as for other Companies.

Scottish Power, on its acquisition of Southern Water, gave an undertaking to the Secretary of State to issue and retain a financial instrument whose market price should react to the position of the Appointed Business.

The Director proposes to modify Southern Water's licence to include that requirement as a condition of its licence.

The Director proposes to require Southern Water to publish information about its final and interim results as if it were a Company whose shares were listed on the London Stock Exchange.

#### General issues

There are two specific issues that relate to the general regulatory framework but are relevant to the proposals. The Director has sought views on these in a separate consultation paper "Proposals for the modification of the conditions of appointment of Southern Water Services". These are set out below in order to put the proposed licence modifications into context.

(i) Financing of functions—Would a highly geared, thin equity structure be sufficiently robust to withstand cost shocks and the consequences of poor management and so protect customers from additional risk?

(ii) Incentives for ongoing efficiency—would the owners' reduced equity investment result in significantly weaker incentives on the Company's management for continuing efficiency improvements?

At this stage, the Director's preliminary assessment is that Scottish Power's proposals do not, on balance, give rise to any insurmountable issues provided that the package of licence modifications is fully implemented and the appropriate corporate investment grade rating for Southern Water's borrowings is achieved and maintained.
