WATER RESOURCES ACT 1991—SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995)

NOTICE OF APPLICATION FOR CONSENT FOR THE PURPOSES OF SECTION 88

Notice is hereby given in accordance with Schedule 10 of the above Act that an application has been made to the Environment Agency by Southern Water Services Limited for consent to discharge sewage in an emergency to the English Channel at National Grid Ref TQ 8049 0885 from the existing Coombs Wastewater Pumping Station (WPS), Warrior Square, St Leonards-on-Sea, East Sussex.

Coombs WPS already has a consent (Ref A.844/S/P98) to discharge sewage in an emergency to the English Channel via the Rock-a-Nore outfall at TQ 8305 0955. However, the potential for this consented discharge will arise due to total failure of the pumping station (all pumps inoperative).

It has, however, been recognised by Southern Water that in the event of partial failure of the pumping station (ie the pumps delivering the sewage to the treatment works becoming inoperative but the storm pumps remaining operational) that the potential exists for an emergency discharge via Warrior Square outfall (already consented for a storm discharge) rather than the Rock-a-Nore outfall. Southern Water has therefore made this Consent Application to the Environment Agency in order to regularise this situation.

The WPS is equipped with the following facilities designed to minimise the frequency and duration of any such overflow to such an extent that the discharge should seldom if ever occur:

- a duty pump shall be maintained in good working order and at least one standby pump shall be provided and maintained.
- a 24 hour response telemetry alarm system will be provided and maintained to give notification of failure or breakdown of the pumping station.
- a dual power supply (ie two separate feeds from separate parts of the National Grid to maintain the stations electrical supply in the event of local power cuts).
- a storage volume of capacity 56,400 cubic metres storage capacity that equates to a potential storage time of 37 hours at three times dry weather flow.

Please note that any consent granted as a result of this application will require the applicant to maintain all of the above facilities.

Any person who wishes to make representations about the application should do so in writing to the Water Quality Consenting Officer at the Agency's offices at Saxon House, Little High Street, Worthing, West

Sussex BN11 2BP, during the period 31 January 2003 to 31 March 2003 quoting Ref A. 1189/S/03.

The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of this application and any representations made by interested parties, it is decided that consent can be granted, then conditions will be imposed to ensure that these aims of the Agency regarding water quality are met. A copy of the application may be inspected, free of charge, during normal office hours at the Agency's offices at the above address and/or Guildbourne House, Chatsworth Road, Worthing.
