WATER RESOURCES ACT 1991, SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995)

NOTICE OF APPLICATION FOR CONSENT FOR THE PURPOSES OF SECTION 88

Notice is hereby given in accordance with Schedule 10 of the above Act that an application has been made to the Environment Agency by Southern Water Services Ltd., for a variation of the existing consent to discharge (Ref 62/1/1062) relating to Thornham Wastewater Treatment Work (WTW), Thorney Road, Thornham, West Sussex.

The applied for variation is for the addition of three (3) long standing existing but as yet un-consented discharges to the WTW's existing consent document, which at present permits the discharge of treated sewage effluent and settled storm sewage, to Chichester Harbour (the Little Deep) via a common outlet, at National Grid Ref SU 7582 0473. These three additional discharges which are the subject of this application also discharge via this common outlet and consist of:

Discharge 1—A rainfall dependant volume, that is flows in excess of 7 times the dry weather flow, of screened 6 mm two dimensional screens) storm sewage. These screens have been recently fitted by Southern Water Services Ltd. in order to deliver the improvements in water quality that are required as part of the Environment Agency's National Environment Program.

Discharge 2—A rainfall dependant volume, that is flows in excess of 14 times the dry weather flow, of screened (10 mm one dimensional screens) storm sewage. These screens have been recently fitted by Southern Water Services Ltd. in order to deliver the improvements in water quality that are required as part of the Environment Agency's National Environment Program.

Discharge 3—Sewage in an emergency when the WTW's inlet pumping station is inoperative due to electrical and/or mechanical failure. The pumping station is equipped with the following facilities to minimize the frequency, duration and effect of any discharge. These facilities should in fact prevent any such discharge in all but the most exceptional of circumstances:

- (a) duty and standby pumps;
- (b) 24 hour response telemetry alarm system;
- (c) on site standby power generation.

Please note that any consent granted as a result of this application will require the applicant to maintain the above facilities.

The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of this application and any representations made by interested parties, it is

decided that consent can be granted, then conditions will be imposed to ensure that these aims of the Agency regarding water quality are met.

Any person who wishes to make representations about the application should do so in writing to the Regulatory Support (Water Quality) Team at the Agency's offices at Saxon House, Little High Street, Worthing, West Sussex BN11 1DH, during the period 21 May 2003 to 2 July 2003, quoting Ref A.1190/S/03A + B + C.

Copies of the application may be inspected, free of charge, during normal office hours at the Agency's offices at the address given above.
