Environment Agency—South West Region **WATER RESOURCES ACT 1991, SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995)**

NOTICE OF APPLICATION FOR CONSENT TO DISCHARGE

Notice is given, as required by Schedule 10 of the Water Resources Act 1991, that the following applications have been made to the Environment Agency, South West Region.

South West Water has applied for five Consents to Discharge and the modification of two existing Consents to Discharge from the Lizard Peninsula, Cornwall.

South West Water proposes to combine the sewage flows from Mullion, Lizard, Cadgwith and Ruan Minor. This proposal requires three pumping stations at Mullion, three pumping stations at Church Cove and a centrally located sewage treatment works (STW) at Grochall.

At the proposed new STW the sewage will be biologically treated and discharged via the existing outfall located at Church Cove.

Four of the proposed pumping stations will have storm and emergency overflows and two will have just emergency outflows. It is proposed that these pumping stations will have back up facilities in case of breakdown and both Mullion and Church Cove Pumping Stations will have storage tanks to provide attenuation during storms. The storage tank at Mullion has been sized to achieve compliance with the Bathing Water Directive criteria of a maximum of three storm spills per bathing season.

This improvement scheme would replace the two continuous crude discharges, at Mullion and Church Cove, with one biologically treated continuous discharge at Church Cove.
