DROUGHT PERMIT

Take notice that due to a serious water shortage in Oxfordshire, part of Wiltshire (centering on Swindon) and part of Gloucestershire (centering on Cirencester) caused by an exceptional shortage of rain, Thames Water Utilities Limited, of Clearwater Court, Vastern Road, Reading RG1 8DB, has been granted a drought permit by the Environment Agency.

The drought permit varies our licence to abstract water from underground strata at Meysey Hampton in Gloucestershire (Licence No 28/39/5/44) in two respects:

1. It removes a restriction that prohibits any abstraction before 31 December 2003, except during emergency periods arising from the failure of the Swindon to Farmoor pipeline.
2. It removes (for a temporary period ending on 31 March 2004) a restriction that prevents abstraction under this licence unless the iron concentration in one of our boreholes at Latton exceeds 100 microgrammes per litre and our other Latton boreholes are pumping at maximum capacity.

The effect of the permit will be to increase the amount of water available to supply the Swindon area, thereby reducing the volumes necessary to transfer from Farmoor reservoir. This will help to achieve a reduction in the fall of water levels at the reservoir in order to safeguard longer term supplies for public use.

Anyone may inspect the permit, free of charge, at Cricklade Post Office, High Street, Cricklade, Swindon, Wiltshire SN6 6BX and at Reading Bridge House (Second Floor), Vastern Road, Reading RG1 8DB, during normal working hours until 31 March 2004.

The drought permit varies our licence to abstract water from the River Thames at Farmoor (Licence No 28/39/16/78) until 31 March 2004. This will mean that when the naturalised flow at Farmoor is more than 136,380 cubic metres per day, no water shall be abstracted so as to reduce the flow measured at Farmoor gauging station to less than 46,380 cubic metres per day. When the naturalised flow is less than 136,380 cubic metres per day, abstraction shall not exceed 90,000 cubic metres per day or 3,750 cubic metres per hour.

The effect of the permit will be to increase the amount of water available for abstraction into Farmoor reservoir. This will help to achieve a reduction in the fall of water levels at the reservoir in order to safeguard longer term supplies for public use.

UNITED UTILITIES WATER PLC

NOTICE OF APPLICATION FOR A DROUGHT PERMIT

Take notice that due to the threat of a serious water shortage in the part of its water supply area served by Windermere, caused by an exceptional shortage of rain, United Utilities Water PLC ("the Company") is applying to the Environment Agency for a drought permit under section 79A of the Water Resources Act 1991.

The proposed drought permit, which is intended to apply until 31 March 2004, will allow the Company to abstract water from Windermere when the flow in the River Leven is at least 91 megalitres (20 million gallons) per day instead of the normal specified monthly flows during this period (inclusive) of 136.4 megalitres per day (30 million gallons); and to disregard the overall limitation of 36,504.4 megalitres (8,030 million gallons) in any period of 12 months in respect of all water abstracted from Windermere, during the period of operation of the permit.

The anticipated effect of the drought permit, if granted, will be to increase the amount of water available for supply in the North West region, by reducing the amounts needed to be abstracted from the Haweswater and Thirlmere Reservoirs. This will help to safeguard longer term supplies for public use. The effect of this may be a reduction in the flow of the River Leven downstream of Windermere. In consultation with the Environment Agency and other bodies, including English Nature, the Company is carrying out comprehensive

environmental assessments into the potential impact of the proposed permit. The proposal does not seek any powers to lower the level of Windermere.

Anyone may inspect the proposals, free of charge, during normal working hours at:

Windermere Public Library, Ellerthwaite, Windermere, Cumbria LA23 2AJ; United Utilities Water PLC, Dawson House, Great Sankey, Warrington WA5 3LW; United Utilities Water PLC, Parkside Road, Kendal, Cumbria LA9 7DU; Environment Agency, Ghyll Mount, Gillan Way, Penrith 40 Business Park, Penrith, Cumbria CA11 9BP.

for a period of eight days from the publication of this notice.

Objections may be made to the Environment Agency at Ghyll Mount, Gillan Way, Penrith 40 Business Park, Penrith, Cumbria CA11 9BP, for the attention of Kim Nicholson, Area Manager (North). Objections should be made immediately and in any event within eight days from the date of publication of this notice. Objections should be in writing and objectors are also requested to send a copy of their objection to the undersigned.

Should it appear to the Environment Agency that the permit is required to be made urgently if it is to enable the Company effectively to meet the deficiency of supplies of water in their area, it may direct that the holding of a hearing by a person appointed by it should be dispensed with

ABSTRACTION OF WATER FROM ULLSWATER

Take notice that due to the threat of a serious water shortage in the part of its water supply area served by Ullswater, caused by an exceptional shortage of rain, United Utilities Water Plc ("the Company") is applying to the Secretary of State for the Environment, Food and Rural Affairs for an Order under sections 73 and 74 of the above Act to authorise the construction of temporary works and to reduce temporarily the prescribed flows at which abstraction is permitted from Ullswater.

This application is to allow the Company, until 31 March 2004, to construct and maintain a temporary weir or weirs across the River Eamont near Pooley Bridge at a mean height of not more than 145.12 metres (476.1 feet) above ordnance datum (Liverpool); and to substitute for the normal specified rates of flow required to permit abstraction (232 megalitres (51 million gallons) per day in December, 386 megalitres (85 million gallons) in January and February per day, and 350 megalitres (77 million gallons) per day in March) a flow of at least 91 megalitres (20 million gallons) per day.

The anticipated effects of the drought order, if granted, will be

(a) to slightly raise the level of Ullswater by 150mm (6 inches) and so to increase the amount of water available for supply in the North West region, and/or release water to the River Eamont to protect the environment.

(b) to increase the amount of water available for supply in the North West region, by reducing the amounts needed to be abstracted from the Haweswater and Thirlmere Reservoirs. This will help to safeguard longer term supplies for public use.

The Order may result in a reduction in the flow of the River Eamont downstream of Ullswater. In consultation with the Environment Agency and other bodies, including English Nature, the Company is carrying out comprehensive environmental assessments into the potential impact of the proposed Order. The proposal does not seek any powers to lower the level of Ullswater.

Anyone may inspect the proposals, free of charge, during normal working hours at:

The Post Office, Pooley Bridge, Cumbria CA2 1NP; United Utilities Water Plc, Dawson House, Great Sankey, Warrington WA5 3LW;

United Utilities Water Plc, Parkside Road, Kendal, Cumbria LA9 7DU; and Environment Agency, Ghyll Mount, Gillan Way, Penrith 40 Business Park, Penrith, Cumbria CA11 9BP, for a period of eight days from the publication of this notice.

Any objections to the proposed Order must be made in writing to the Secretary of State for the Environment, Food and Rural Affairs, c/o Mr K A Bates, Zone 3/H18, Ashdown House, 123 Victoria Street, London SW1E 6DE, within eight days of publication of this notice. It is requested that a copy of any such objections be sent at the same time to the undersigned.

Should it appear to the Secretary of State that the Order is required to be made urgently if it is to enable the Company effectively to meet the

deficiency of supplies of water in their area, he may direct that the holding of a public local inquiry or a hearing by a person appointed by him should be dispensed with.

WATER INDUSTRY ACT 1991, SECTION 13

PROPOSALS BY THE DIRECTOR GENERAL OF WATER SERVICES FOR THE MODIFICATION OF THE CONDITIONS OF APPOINTMENT OF NORTHUMBRIAN WATER SERVICES LIMITED AS A WATER AND SEWERAGE UNDERTAKER

The Process

Ofwat is required to consult on proposed modifications to the conditions of appointment of Northumbrian Water Services Limited (Northumbrian Water). This notice seeks responses to those modifications described below. Any representations or objections must be sent in writing to Keith Mason, Director of Regulatory Finance at Ofwat, Centre City Tower, 7 Hill Street, Birmingham B5 4UA (fax, 0121 625-3609 or e-mail keith.mason@ofwat.gsi.gov.uk) to be received no later than 5.00 pm on 19 December 2003.

Description of the Modifications and the Reasons for them

On 17 May 2003, Aquavit plc announced that it had agreed to purchase 100% of the share capital of the parent company of Northumbrian Water Ltd (Northumbrian Water), the Company regulated by Ofwat. Aquavit plc completed the acquisition on 23 May 2003 and changed its name to Northumbrian Water Group plc (NWG plc). The former owner of Northumbrian Water, Suez, received 25% of the share capital of NWG plc.

Northumbrian Water is a licensed water and sewerage undertaker supplying water and sewerage services to a population of approximately 2.6 million in the North East of England and water services to a population of approximately 1.7 million in Essex and Suffolk.

We issued a consultation paper on 10 June 2003. We invited views on any issues resulting from the acquisition and specifically invited views on:

- the financing of Northumbrian Water;
- the current arrangements for ring fencing of the regulated business;
- the new Company's capacity to own a regulated water business; and
- whether incentives for efficiency have changed.

On the basis of responses to our consultation paper and our further analysis of the proposed financial structure, we consider that licence modifications are required.

Ring-fencing of Northumbrian Water

Ofwat wishes to ensure that Northumbrian Water's regulated business is ring-fenced from the other activities of Northumbrian Water Group. Northumbrian Water already has a number of the ring-fencing provisions. The following modifications will bring Northumbrian Water's licence up to the current standard for those companies recently involved in merger or corporate finance activity. They are:

The Appointee shall use all reasonable endeavours to ensure that it, or any Associated Company as issuer of corporate debt on its behalf, maintains at all times an issuer credit rating which is an Investment grade rating; and

The Appointee must maintain a listing of a financial instrument and shall use all reasonable endeavours to retain the listing of that financial instrument, whose market price should relate to the financial position of the Appointee's Appointed Business, on the London Stock Exchange or another exchange of similar standing.

The role of Northumbrian Water's owners

All water companies need to have the active co-operation of their owners in carrying out their functions as water and sewerage undertakers and complying with the conditions of their Appointments. Northumbrian Water's licence currently requires it to procure from its previous owners, legally enforceable undertakings that they will:

- give the Company all information it requires to comply with its licence;
- refrain from any action which would be likely to cause or require the Company to breach any of its obligations under the Water Industry Act 1991 or its licence as a water undertaker;

(c) ensure that the Company's Board contains not less than three independent non-executive directors.

The text of this licence condition will be modified to require it to obtain such undertakings from its new owners NWG plc. (491)
