DROUGHT PERMIT GRANTED FOR TALYBONT RESERVOIR

There has been an exceptional shortage of rainfall in the water catchment serving the Talybont Reservoir area in the period since July 2003. Whilst there are no concerns that this will cause a shortage in supply during the winter months, Dwr Cymru Cyfyngedig wishes to ensure that the reservoir refills so as to maintain normal supplies during the summer months of 2004. To achieve this Dwr Cymru Cyfyngedig of Pentwyn Road, Nelson, Mid Glamorgan CF46 6LY, has applied for and been granted a drought permit by the Environment Agency.

The drought permit has been granted for the period from 23 December 2003 until 31 March 2004, and authorises a reduction in the compensation flow from Talybont Reservoir from 25 to 12.5 megalitres per day. The authorised reduction was put into place on 29 December 2003.

The anticipated effect of the drought permit will be to sustain water levels in the Talybont Reservoir so as to improve reservoir refill and help safeguard water supplies for next summer. The Environment Agency and Countryside Council for Wales have been consulted to ensure that the start date for this permission minimises the environmental impacts within the affected catchment and no significant environmental effects are anticipated.

Anyone may inspect the drought permit, free of charge, during normal office hours, until 23 January 2004, at the following locations:

WITHDRAWAL OF DROUGHT PERMIT APPLICATION FOR ELAN VALLEY RESERVOIRS

There had been an exceptional shortage of rainfall in the water catchment servicing the Elan Valley Reservoir area during the period since July to October 2003. Whilst this did not cause concern for a shortage in supply during the winter months, Dwr Cymru Cyfyngedig wished to ensure that the reservoir refilled so as to maintain normal supplies during the summer months of 2004. To achieve this Dwr Cymru Cyfyngedig of Pentwyn Road, Nelson, Mid Glamorgan CF46 6LY, applied to the Environment Agency for a drought permit on 16 December 2003.

However, Dwr Cymru Cyfyngedig has decided to withdraw its application because the reservoirs have recovered to nearly 90% full due to reductions made in abstraction from the reservoir and the rainfall received during the later part of December. As such, the hearing planned for 6 January 2004 to discuss this application was cancelled.

HIGHWAYS AGENCY**LAND COMPENSATION ACT 1973, PART 1 (AS AMENDED)****A6 ALVASTON BYPASS**

The Secretary of State for Transport hereby gives notice that the length of highway detailed in the Schedule below was first open to public traffic on 17 December 2003.

Under Part I of the Land Compensation Act 1973 (as amended) there is a right to compensation in respect of any depreciation of more than £50 in the value of certain interests in land caused by the use of new or altered highways or the use of other public works including street lighting and resulting from specified physical factors (noise, vibration, smell, fumes, smoke and artificial lighting and the discharge onto the land in respect of which the claim is made of any solid or liquid substance). Compensation is assessed by reference to prices current at a date twelve months after the new or altered highway is first open to public traffic. Interests qualifying for compensation are specified in section 2 of the above-mentioned Act and there are special provisions relating to claims by mortgagees and persons entitled under trusts and settlements. However, no compensation can be paid under Part I where part of a property has been acquired for the purpose of constructing the highway. Any person entitled to a qualifying interest who considers they have a claim under the said provisions may obtain further information and claim forms from Susan Jahr, at the Highways Agency, Lands, Room C2, 5 Broadway, Broad Street, Birmingham B15 1BL, telephone 0121 678 8112.

Claims may be made twelve months after the new highway is first open to traffic, that is on or after 18 December 2004 (the "first claim date"). Claims should be made within 6 years from this date.

However, any person who within the twelve months preceding that date makes a contract for disposing of his interest or (insofar as the interest is in land which is not a dwelling) for granting a tenancy may make a claim within that period and must do so before the interest is disposed of, or the tenancy granted. Compensation in such cases will not be payable before the first claim day.

SCHEDULE

A6 Alvaston Bypass completes the final link between the A52 to the north of Derby and the A50 Derby Southern Bypass. The new dual carriageway is approximately 1.5 miles (2.3 km) long and passes to the east of Alvaston between the existing Thulston Roundabout at the end of the A6 Spur and the new Raynesway Park Roundabout at the junction with the A5111 Raynesway. The scheme provides one new junction into Elvaston Lane, and includes two pedestrian over-bridges at Green Lane and Elvaston Lane, and an underpass at the southern end of the road. The scheme also includes a significant amount of environmental mitigation, including a 3.5 metre high earthen mound, separating the road from the outskirts of Alvaston.

E Holloway, Higher Executive Officer
The Highways Agency, Broadway, Birmingham. (561)
