London Borough of Barnet

NEW ROADS AND STREET WORKS ACT 1991 ("THE ACT") SECTION 58

NOTICE OF RESTRICTION ON STREET WORKS

1. Notice is hereby given by the Council of the London Borough of Barnet (the highway authority and the street authority) that it intends to carry out substantial road works and that the restriction imposed by this notice will apply.

2. The streets in which these works are intended to take place; the type of works, details of the estimated area; length and location of work and commencement dates proposed are as per the Schedule to this notice. (The Schedule is subject to regular review and any revisions will be published and/or circulated as soon as practicable thereafter to all statutory undertakers and other interested parties. In keeping with the normal practice all residents, businesses, traders, etc. likely to be affected by the work will be notified by circular letters in advance of the start of the scheme.)

3. Once the Council's works relating to any one of the above streets have been completed, no statutory power to break up or open that street shall be exercisable during the period of 12 months following completion of those works except:

- (a) in the case of emergency works or other works excepted under section 58(5) of the Act; or
- (b) with the consent of the Council;

provided that, where the Council's works relate to part, rather than to the whole, of a street, the restriction on breaking up or opening the street shall apply only to the part of the street to which the works relate.

4. All applications for consent must be submitted to the Head of Highways and Design, Barnet House, 1255 High Road, Whetstone, London N20 0EJ, in writing at least 20 working days before the excavation is proposed to start. The application should be submitted with drawings, extent of work and method of working including proposed traffic management, start and completion dates and the reason for the excavation. The Council may not unreasonably withhold consent.

National Assembly for Wales

COUNCIL DIRECTIVES NOS 85/337/EEC AND 97/11/EC

THE HIGHWAYS ACT 1980

THE GLANUSK PARK TO LLYS—WEN TRUNK ROAD (A479) TALGARTH RELIEF ROAD AND A438/A479 BRONLLYS BYPASSES

The National Assembly for Wales ("the National Assembly") is considering whether to proceed with the above project for constructing or improving a highway for which it is the highway authority.

The project involves the construction of a new relief road to Talgarth (the A479), trunking the existing B4560 Llangorse Road between the Gwernyfed Rugby Club House and Bronllys Road, minor improvements to Bronllys Road and the construction of short bypasses (A479/A438) to Bronllys. The A438 Bronllys bypass is promoted by Powys County Council concurrently with the A479 schemes.

To the south of Talgarth, the existing A479 would be closed to trunk road traffic from a point south of Pendre Farm but would remain open for access from the north to the lay by near Pendre Hillfort. Beyond this point up to its junction with the Penyrwllod side road, the existing A479 would remain open for adjoining landowners and for use as a cycle way, footpath and bridleway.

The new road between this point and the B4560 Llangorse Road would consist of a single carriageway with a southbound climbing lane over the northern section only. This section would terminate at a roundabout on the existing B4560 near to the rugby club. From here the route would follow the existing B4560 Llangorse Road and the A479 Bronllys Road, where the existing junction would be modified to accommodate the changed priorities, to a new roundabout to the north of Bronllys Castle between Talgarth and Bronllys. Over these sections minor improvements and traffic calming measures would be incorporated. From this new roundabout two new single carriageway bypasses would extend generally east and west to form a complete bypass to Bronllys. To the west a new roundabout would be formed near to the Bronllys Hospital entrance on the A438: to the east the bypass would re-join the existing A479 west of the property Penmaes with a new link provided into Bronllys via a T-junction. Extensive traffic calming of the existing A438 and A479 through Bronllys would be undertaken to deter through traffic.

The scheme would incorporate appropriate landscape, visual, ecological and other mitigation measures to minimise its impact on the environment.

It has been determined by the National Assembly that the project is a relevant project within Annex II to Council Directive 85/337/EEC ("the Directive") as amended by Council Directive 97/11/EC and that it should be made subject to an Environmental Impact Assessment in accordance with the Directive.

In accordance with the above determination an Environmental Statement has been prepared.

Description of local environment:

The local environment consists of four main character areas:

- 1. The urban settlements of Talgarth and Bronllys: both are historic centres, Talgarth being formally designated as a conservation area. The centre of Talgarth has been severely degraded by the effects of traffic, and in particular HGV traffic, attempting to negotiate its narrow streets and the two particularly tight turns/junctions where the existing road crosses the river Ennig. Bronllys also suffers from heavy through traffic with the roads and properties around the one way junction system within Bronllys being particularly affected.
- 2. The river plain of the Llynfi: The area stretches north from the B4560 to the north of Bronllys where the land starts to rise again. The area is characterised by its flat or gently rising landscape with small arable fields. Within the landscape there are significant hedgerows with single mature trees as well as small wooded copses.
- 3. Northern slopes of the National Park: the landscape rises steeply south of Talgarth and is characterised by small arable fields with hedgerows, individual mature trees and small copses. The landscape is deeply dissected by the wooded valley of the Ennig and its tributaries.
- 4. Brecon Beacons: the Beacons provide a dramatic, un-farmed backdrop to the area, rising above the farmed lower slopes to form a series of mountain scarps.

The Environmental Statement identifies the key environmental issues associated with the scheme namely:

New cuttings and embankments through farmland within the Brecon Beacons National Park and the severance of associated historic hedgelines and farmland;
Potential severance of habitats of protected species;
Potential loss of habitat;
Visual impact on the Brecon Beacons National Park;

Potential effect on the Ennig, Llynfi and Dulais rivers and on associated Site of Special Scientific Interest and candidate Special Area of Conservation designations;
Severance of farm land south of Bronllys;
Potential effect on land/property at the junction with the B4560;
Potential Adverse visual impact on the Wye Valley Historic Landscape;
Construction work impacts;
Potential increased HGV traffic along Bronllys Road and existing B4560;
Reduction in traffic in Bronllys and Talgarth;
Potential reduction in HGV traffic on alternative routes currently used;
Reduced physical damage to property in Talgarth;
Reduced impact on some historic features.

Details of the scope and extent of the Environment Impact Assessment (EIA) work undertaken and consultations with any principal council, the Countryside Council for Wales, Cadw and the Environment Agency;

The Welsh Assembly Government commissioned a 12-month ecological survey, commencing in May 2002, to provide baseline data for the EIA. The scope for this work was agreed by the key stakeholders comprising the Countryside Council for Wales, Cadw, the Environment Agency, Powys County Council, the Brecon Beacons National Park Authority, the Welsh Assembly Government and their consultants. Subsequent separate consultations have been undertaken with each of the above agencies and a further key stakeholders meeting was held in May 2003 to scope further ecological studies and to discuss and agree scheme details and mitigation measures.

The Environment Scoping Report for the EIA has been produced for agreement and baseline field and desktop work undertaken. The Environmental Statement identifies the following measures to be incorporated into the project in order to avoid, reduce or offset its adverse effects:

Areas of tree and shrub planting alongside the proposed improvement will help to screen views of the road and its traffic and replace the trees removed during construction;

New hedges would be planted along the highway boundary to re-create field boundaries, where appropriate, and link with adjoining hedges and woodland;

The lengths of new hedges and the areas of replacement woodland scrub and wildflower grassland would be equivalent to the losses incurred and provide habitats of equal, if not greater, diversity and value;

The new hedgerows, scrub and grassland will be species-rich and the plants used would be based on plant communities described by the National Vegetation Classification with local provenance;

The redundant sections of the existing A479, where not required for access, would be broken up and planted or seeded. Some sections may be returned to agriculture, subject to the landowner's Agreement;

To offset any impact on ecology and nature conservation, new planting would be carried out. The trees and shrubs to be planted would be species that are native to this part of Powys. Planting will be varied to suit particular situations and will include new woodland, hedges and scrub. Within the highway boundary wildflower grasslands, also consisting of native species, will be created;

Enlarged culverts and mammal underpasses would permit the safe movement of protected species without conflict with traffic;

There would be a pre-construction ecological survey to take account of any changed circumstances that may require modifications to the mitigation measures;

To protect breeding birds, the removal of any trees, shrubs and hedgerows would not be permitted during the bird-nesting season. Trees identified as being used by bats will be removed only at appropriate times;

There will be on site monitoring of the effects of the works on the local environment during site clearance operations and the construction period.

Statement of case in support of a Determination that Environmental Impact Assessment is required:

Under the National Assembly for Wales Director of Transport's Instructions all projects over £1 million require an EIA to be undertaken. The value of this project exceeds £1 million. The scheme is also a relevant project as defined in the Regulations. It is located in a sensitive area and it has been determined that an EIA is required in accordance with the regulations. The Environmental Statement also contains information for the purposes of an Appropriate Assessment under Regulation 48(1) of the Conservation (Natural Habitats & c.) Regulations 1994 which describes the implications for the Sites and qualifying interests involved in view of those sites' conservation objectives. Copies of the Environmental Statement, the non technical summary and the relevant plans and draft Orders relating to the project may be inspected, free of charge, at all reasonable hours until 8 April 2004, or within 6 weeks from the date of publication of this notice,

whichever period shall expire later, at the offices of Powys County Council, Neuadd Brycheiniog, Cambrian Way, Brecon; Talgarth Post Office, Co-op Stores, The Square, Talgarth; Bronllys Post Office, Anchorage Caravan Park, Bronllys; the Library, New Street, Talgarth and Roads Administration Division 3, Transport Directorate, Welsh Assembly Government, Cathays Park, Cardiff. Copies of the environmental statement can also be purchased on CD-Rom, price £45 by request.

Any person may not later than 8 April 2004 or within 6 weeks from the date of publication of this notice, if such period shall expire later, express an opinion on the published details of the project and the Environmental Statement to Roads Administration 3, Transport Directorate, Welsh Assembly Government, Cathays Park, Cardiff CF10 3NQ, quoting Ref BZ 986052-310-1. In the preparation of any expression of opinion it should be borne in mind that the substance of any objection or representation may be communicated to other people who may be affected by it.
