Concurrent with these inquiries will be inquiries called by the Secretary of State for Transport to consider the objections and representations made in respect of:

an application under the Harbours Act 1964 for the extension and realignment of the quayline at Felixstowe South, and

two applications under section 34 of the Coast Protection Act 1949 to dispose of dredged arisings relating to the Felixstowe South Reconfiguration proposal.

Under Rule 6 of the Town and Country Planning (Major Infrastructure Project Inquiries Procedure) (England) Rules 2002, the First Secretary of State requires the holding of a pre-inquiry Meeting. The arrangements for that Meeting will be notified in due course, but it is anticipated it will take place in July 2004. It is expected the inquiry will open in October 2004.

Anyone who wishes to participate in the inquiry can obtain a registration form from Mrs S Scrivener, Suffolk Coastal District Council, Melton Hill, Woodbridge, Suffolk IP12 1AU, telephone 01394 444300, and return it to the address shown on the form by 28 May 2004.

Statement of Matters

These are the matters about which the First Secretary of State particularly wishes to be informed for the purposes of his consideration of the above appeals:

(a) The extent to which the proposal accords with the policies and proposals in the adopted development plan for the area.

(b) The relationship of the proposals to Regional Planning Guidance 6 and with the emerging Regional Planning Guidance 14.

(c) The need for the development and whether the benefits from it would justify the grant of permission.

(d) The effect of the proposed development on existing amenities and infrastructure in the area.

(e) The effect the proposed development would have on the safety and free flow of traffic on the road network—including the effect on A14, A12 and trunk road network; the effect it would have on the rest of the transport network; and the extent to which it would be consistent with national transport planning policies and the objective of promoting sustainable transport choices as set out in PPG 13 "Transport".

(f) The extent to which the proposed development is consistent with national planning policies for industrial and commercial development as set out in PPG 4 "Industrial and Commercial Development for Small Firms".

(g) The extent to which the proposed development is consistent with national policies set out in PPG 7 "The Countryside—Environmental Quality and Economic and Social Development".

(h) The likely effects of the proposed development on the ecology of the area, and the extent to which they are consistent with national policies on the conservation of the natural environment, as set out in PPG 9 "Nature Conservation" and on development in coastal areas (PPG 20 "Coastal Planning"). This includes the likely effects:

on the Stour and Orwell Estuaries Special Protection Area ("SPA"), Ramsar Site;

on the Landguard Common Site of Special Scientific Interest (SSSI);

of disturbance to wintering waterfowl and the implications for areas designated as special protection areas; and

of disturbance to other species protected under EU and UK legislation.

(i) The impact that the proposed development would have on the living and working conditions of local residents and businesses in respect of noise, vibration, pollution, lighting and visual intrusion, and the impact on the appearance and character of the area;
(j) The effect of the proposed development on the built heritage including the impact on scheduled ancient monuments and listed buildings and other archaeological remains—in particular the effect on Landguard Fort—having regard to the guidance in PPG 15 "Planning and the Historic Environment" and PPG 16 "Archaeology and Planning".
(k) The effect of the proposed development on the character and appearance of nearby conservation areas, in particular the Harwich Conservation Area.
(l) The impact on coastal protection and erosion and the extent to which the proposed development takes account of PPG 25 "Development and Flood Risk". The proposals for the drainage of surface water from the site.
(m) The proposals for mitigating any adverse environmental effects, including:

Any measures to avoid, reduce or remedy any major adverse environmental impacts of the proposed works;
Any measures to avoid, reduce or remedy any other adverse environmental impacts likely to arise from the proposed works; and
Whether, and if so to what extent, any adverse environmental impacts would still remain after the proposed mitigation measures had been put in place.

(n) The conditions that would apply be applied to permissions for the proposed development, and in particular the extent to which such conditions meet the tests in DOE circular 11/95 of being necessary, relevant, enforceable, precise and reasonable.
(o) The adequacy of the environmental statement submitted with the planning application and whether statutory procedural requirements have been complied with.

It should be noted that while the above matters appear to the First Secretary of State, from the evidence so far available to him, to be the principal ones that need to be addressed, this statement does not preclude the inquiry Inspector from hearing evidence on any other matters that he may consider to be relevant to consideration of the applications. Neither does this statement pre-determine the order in which issues are to be addressed at the inquiry or imply any particular order of importance. Furthermore, the First Secretary of State reserves the right to add to or amend this statement once he has received any statements of case that are subsequently served by parties to the inquiry.
