Amend the Traffic Order so as to allow the Council to refuse residents' parking permits to those who have abused the permit system either by producing fake permits for personal use or distribution to non-residents; or by assisting non-residents to obtain permits by falsifying evidence or allowing their address to be used; or by giving false information about their vehicle to obtain a permit (such as understating a vehicle's height or length); or selling a vehicle still displaying a valid permit; or by holding a residents' permit for more than one borough.

Any person who has been found to have abused the permit system in any of the ways specified above would have their permit withdrawn and would be refused a further permit for a minimum of one year, or in the case of serious permit abuse, indefinitely, and the individual may face prosecution.

WATER RESOURCES ACT 1991, PART III

NOTICE OF APPLICATION FOR CONSENT IN PURSUANCE OF SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995)

Notice is hereby given, in accordance with Schedule 10 of the Water Resources Act 1991 (as amended by the Environment Act 1995), that an application has been made to the Environment Agency, Anglian Region, by Anglian Water Services Ltd, for consent to discharge up to 10,327 cubic metres per day of treated sewage effluent from Sleaford Sewage Treatment Works, Sleaford, Lincolnshire, into the Old River Slea, at National Grid Ref TF 0862 4722.

Discharges of storm sewage and settled storm sewage have also been applied for. The latter will occur when flows in the incoming sewers to Sleaford Sewage Treatment Works exceed 10,327 cubic metres per day (119.5 litres per second) due to rainfall or snowmelt, and then only when the capacity of the storm tank is also exceeded.

The capacity of the storm tank will be 892 cubic metres. Its purpose is to protect the sewage treatment works from surges of surface water during times of rainfall or snowmelt, which can adversely affect the effluent treatment.

Any person who wishes to make representations about the application should do so in writing to the Corporate Services Team Leader (Northern Area), Environment Agency, Waterside House, Waterside North, Lincoln LN2 5HA, to arrive not later than 30 September 2004, quoting Ref No ANNNF420/13036D (Ref 13716).

The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of this application and any representations made by interested parties, it is decided that consent can be given, then conditions will be imposed to ensure that the effluent receives treatment before discharge to the receiving waters so that the above aims are met.

If you wish to discuss this matter please contact Palmira Arenaz Laborda on (01522) 513100 between 9.00 am and 5.00 pm, Monday to Friday.

MET Office—Severe Floods Hit Southwest England
 Heavy, thundery downpours developed by midday across SW England today. These showers formed bands which aligned themselves with the wind helping to maintain the heavy rain across certain areas of North Cornwall for several hours. The trigger mechanisms for these storms appears to be convergence of winds along the coast and the high ground in the local area which also helped to generate showers. It would appear that the serious nature of these floods has been exacerbated by the local topography around Boscastle. Bands of showers forming in this manner is not unusual, but the intensity and persistence of these that resulted in such flooding is rare. The forecast was for heavy, often torrential downpours developing through the day, but the exact location of where these would develop is always problematic
