LAND COMPENSATION ACT 1973 (AS AMENDED) M6 TOLL

1. The Secretary of State for Transport hereby gives notice that the new length of highway described in the Schedule below was first open to public traffic on 9 December 2003. That date is known as the "relevant date".

2. Under Part I of the Land Compensation Act 1973 (as amended) (from now on referred to as the Act), compensation can be claimed by anyone having a qualifying interest in land (see paragraphs 7 and 8 to this notice) if the value of that interest has been depreciated by more than £50 by physical factors caused by the use of the new highway. The physical factors are noise, vibration, smell, fumes, smoke and artificial lighting and the discharge on to the land of any solid or liquid substance.

3. The first day on which compensation can be claimed is the day after 12 months have expired from the relevant date and is known as the "first claim day". The first claim day for this new highway is 10 December 2004.

4. Anyone who, after the first claim day, intends to sell his/her interest in the property or, in the case of properties that are not dwellings, to grant a tenancy, must make a claim before a contract to sell or grant a lease is made. The Secretary of State cannot accept a claim after a contract to sell or grant a lease has been made.

5. By virtue of section 19(2A) of the Act and under the Limitations Act 1980, a claim will become time-barred if within 6 years from and including the first claim day the claimant has not:

- (a) Agreed in writing an offer of compensation (including any reasonable valuation and legal expenses) made by the Secretary of State in writing; or
- (b) If agreement is not so reached, made a reference to the Lands Tribunal to have it determine the compensation.

Where a claim has become time-barred under the Limitations Act 1980, the Secretary of State can no longer be required to pay compensation.

6. No compensation can be claimed under Part I of the Act where part of the property was acquired for the construction of the new highway. Instead, compensation for land acquired is paid under different rules.

7. To claim compensation under Part I of the Act, a qualifying interest in the land must have been acquired before the new highway was first open to public traffic. The qualifying interest must also be held by the claimant at the date of making a claim. The claimant must be able to produce evidence of his/her interest in the property when required to do so by the Secretary of State. Compensation will not be paid where a claimant's qualifying interest in the property cannot be verified.

8. Interests in land qualifying for compensation are specified in Section 2 of the Act. They are:

(a) For dwellings, the interest must be that of an owner by virtue of owning the freehold or a tenancy with at least three years left to run at the time of making the claim. Where the interest carries the right to occupy the property, the claimant must do so as his residence.

(b) For agricultural units, the interest must be that of an owner-occupier, that is, a person who occupies the whole of the unit and owns the freehold or a tenancy with at least three years left to run at the time of making the claim in the whole or any part of the unit.

(b) For other property that is not a dwelling or an agricultural unit, the interest must be that of an owner-occupier, that is, a person who occupies the whole or substantial part of the property by virtue of owning the freehold or a tenancy with at least three years left to run at the time of making the claim. The property must have an annual value that does not exceed £24,600 (this figure may be updated by Order from time to time).

9. Special provisions under the Act apply to claims where the land is subject to a mortgage, where there are persons entitled under trusts or settlements or by inheritance and where there are tenants entitled to enfranchisement or extension under the Leasehold Reform Act 1967.

10. Compensation is assessed by reference to property prices that are current on the first claim day. Account will be taken of the use of the (new) highway, as it exists on the first claim day. Account will also be taken of any intensification that may then reasonably be expected of the use of the (new) highway in the state it is on the first claim day.

11. Anyone having a qualifying interest who considers they have a claim under the Act can obtain further information and a claim form from the Part I Compensation Team, Highways Agency, Room C2, 5 Broadway, Broad Street, Birmingham B15 1BL, by telephoning 0121 687 4141 or by e-mail at Lands_Birm@highways.gsi.gov.uk

12. This notice contains a summary of the law. It is not intended to be a complete and full statement of it. Anyone intending to make a claim should consider obtaining independent professional advice.

London Borough of Richmond upon Thames

TOWN AND COUNTRY PLANNING ACT 1990

NOTICE OF INTENTION TO ADOPT AND OF PROPOSED FURTHER MODIFICATIONS TO A UNITARY DEVELOPMENT PLAN**RICHMOND UPON THAMES UNITARY DEVELOPMENT PLAN: FIRST REVIEW**

A second Public Inquiry into this plan has been held, and the report of the Inspector holding the Inquiry has been considered by the London Borough of Richmond upon Thames ("the Authority"). This second Inquiry dealt primarily with proposed changes which had not been considered at the first Inquiry in 2000.

The Authority proposed to make further modifications to this plan, in the light of the Second Inspector's Report, and subsequent public consultation, which have now all been agreed.

The Authority propose to make one final modification which is in response to a Direction dated 18 November 2004 from the First Secretary of State to modify the affordable housing threshold from sites capable of providing 15 or more units to sites capable of providing 10 or more units, or of 0.3 hectares or more.

The proposed modification is as follows:

Para 8.27, 3rd sentence to read:

"Affordable housing will be expected on sites

(a) capable of providing 10 or more units, or

(b) of 0.3 hectares or more

Such schemes....

Para 8.31, 4th sentence alter 15 to 10 and 0.5 hectares to 0.3 hectares

Para 8.32 to read:

"Circular 6/98 regards a site as suitable for the application of affordable housing policy if it is of 1 hectare or more, or if the number of units proposed is 25 or more. Where a local planning authority is able to demonstrate exceptional local constraints through the planning process, the threshold can be lowered to 15 units or 0.5 hectares (para 10.1). However, national planning guidance on thresholds is in an advanced stage of review. Such emerging guidance can be a material consideration in terms of PPG 1. The adopted UDP had a threshold of 10 units, and the Council considers that, in order to increase the delivery of affordable housing, it is appropriate that in this Review the threshold is "capable of ten units", given that changes in circumstances since that time, particularly in relation to the level of need and the size and characteristics of available sites, serve to strengthen, rather than weaken the Council's case."

The proposed further modification, together with the Authority's reasons for proposing it, and the UDP as proposed to be modified, is available for inspection at the Civic Centre, Twickenham, the Richmond Reference Library and at the following branch libraries—Twickenham, East Sheen, Teddington and Whitton, during usual opening hours.

At this stage objections and representations may be made only in respect of the above modification.

Objections and representations should be sent in writing to Helen Cornforth, Environmental Policy, Policy and Research Section, Environment Directorate London Borough of Richmond upon Thames, Civic Centre, 44 York Street, Twickenham TW1 3BZ, before 4.00pm on Friday 28 January 2005.

Notice of Intention to Adopt Proposals

If no objections are received during the period given for making objections, the London Borough of Richmond upon Thames intends to adopt the proposals on expiry of that period. (118)

(AS AMENDED BY THE ENVIRONMENT ACT 1995)****NOTICE OF APPLICATION FOR CONSENT FOR THE
PURPOSES OF SECTION 88**

Notice is hereby given, in accordance with Schedule 10 to the above Act that applications have been made to the Environment Agency by Southern Water Services Ltd. for consent to make two discharges of sewage effluent from their existing Cliff End Wastewater Pumping Station (WPS), off Cliff Gardens, Seaford, East Sussex. The discharges will be made following the completion of the improvement work being carried out by Southern Water Services Ltd. in order to deliver the improvements in water quality that are required as part of the Environment Agency's National Environment Programme. The details of the two (2) discharges, which will both discharge to the English Channel at National Grid Ref TV 4871 9810, are as follows:

Discharge 1—A rainfall dependent volume of screened (6 millimetre mesh screen) storm sewage, consisting only of those flows in excess of approximately five (5) times the dry weather flow (DWF) of the WPS

and the scheme's storm storage capacity. Sufficient storm storage will be provided to ensure that the frequency of storm overflow events complies with the Environment Agency's policy requirements for such discharges into designated Bathing Waters.

Discharge 2—A discharge of sewage in an emergency. The pumping station will be equipped with the necessary facilities to ensure compliance with the Environment Agency's policy requirements for WPSs with the potential to overflow in an emergency to designated Bathing Waters. These facilities, listed below, will be a requirement of any consent granted and will minimise the frequency, duration and effect of any such discharge and should in fact prevent any such discharge in all but the most exceptional of circumstances:

- (a) duty and standby pumps;
- (b) 24-hour response telemetry alarm system;
- (c) standby generator;
- (d) a storage capacity of 1,430 cubic metres, which equates to approximately 2.3 hours at three (3) times the dry weather flow; and
- (e) road tanker access.

Please note that in the event of this application being granted the existing consent to discharge relating to this WPS will be revoked.

The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of these applications and any representations made by interested parties, it is decided that consents can be granted, then conditions will be imposed to ensure that these aims of the Agency regarding water quality are met. Any person who wishes to make representations about these applications should do so in writing to the Regulatory Support (Water Quality) Team at the Agency's offices at Saxon House, Little High Street, Worthing, West Sussex BN11 1DH, during the period 17 December 2004 to 3 January 2005 quoting Ref A.1231/S/04.

- (b) 24 hour response telemetry alarm system.
- (c) Facility for connection of standby generator.
- (d) Storage capacity equating to not less than 2 hours at three (3) times the dry weather flow.
- (e) Road tanker access.

Please note that in the event of this application being granted the existing consent to discharge relating to this works will be revoked.

NOTICE OF APPLICATION FOR CONSENT FOR THE PURPOSES OF SECTION 88

Notice is hereby given in accordance with Schedule 10 of the above Act that an application has been made to the Environment Agency by Southern Water Services Limited for a temporary consent to discharge a rainfall related volume of storm sewage from a temporary storm overflow located in Seaside Road, Combe Haven, Hastings, East Sussex. The discharge will be made to the English Channel, via an existing outlet already used for another consented discharge of storm sewage, at National Grid Ref TQ 7851 0858.

This application has been generated by the need for Southern Water Services Limited to carry out sewer improvement work in this area with a planned completion date of 31 March 2008. The salient points about this discharge/consent application are as follows:

1. The discharge will cease following the completion of the sewer improvement scheme, ie by 31 March 2008.
2. The discharge will occur from a temporary storm overflow to be constructed at the inlet to the existing Seaside Road Storm Storage Tank.
3. The discharge will only occur when and for so long as:
 - (a) the Combe Haven Wastewater Pumping Station is operating at maximum capacity, and

4. The discharge will occur only as a result of infrequent large storm events.
5. The overflow will be equipped with a telemetric alarm and an event/duration recorder.

Any consent granted will reflect the above points and in particular be time limited to 31 March 2008, to reflect the temporary nature of the discharge.

The Environment Agency is committed to maintaining and, where possible, improving water quality. If, after full consideration of this application and any representations made by interested parties, it is decided that consent can be granted, then conditions will be imposed to ensure that these aims of the Agency regarding water quality are met.
