**South East Water****WATER RESOURCES ACT 1991****DROUGHT PERMIT UNDER SECTION 79A**

Notice is hereby given that, because of the exceptional shortage of rainfall since December 2004, a serious deficiency of supplies of water exists within the Sussex water supply area of South East Water. The Company is therefore applying to the Environment Agency for a Drought Permit under section 79A of the Water Resources Act 1991 to enable the Company to take the following measures to alleviate the deficiency of water, thus ensuring that a sufficient supply of water is available during 2005 and 2006.

The proposed drought permit will involve:

River Ouse at Barcombe Mills:

To amend the Company's existing licence No 21/128, which took effect on 30 March 2004 regulating abstractions by the Company from the river Ouse at Barcombe. This permit if granted would allow the Company to reduce the minimum flow in the river Ouse from 20 megalitres per day as stated in the existing licence to 10 megalitres per day. This relaxation would apply for a 6 month period from the date of issue.

Anticipated Effects:

The anticipated effect of the drought permit, if granted, will be to reduce the rate of draw-down of Ardingly reservoir and to assist in the winter refill of this reservoir. Some short-term impacts on the water environment are expected regarding migratory sea trout. However, the Company has proposed mitigation measures to minimise this impact.

These proposals can be inspected, free of charge, at the addresses below during normal working hours until 8 October 2005.

1-3 Church Road, Haywards Heath, West Sussex RH16 3NY; Lewes Library, Styles Field, Friars Walk, Lewes BN7 2LZ; and The Environment Agency, Saxon House, Little High Street, Worthing, West Sussex.

Objections may be made to the Environment Agency, for the attention of Peter Midgley, by 8 October 2005, at the above address.
