WATER RESOURCES ACT 1991, SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995)

NOTICE OF APPLICATION FOR CONSENTS TO DISCHARGE

Notice is given, as required by Schedule 10 of the Water Resources Act 1991, that the following applications have been made to the Environment Agency, South West Region.

South West Water Limited has applied for consents to discharge from a new Pumping Station and Combined Sewer Overflow at Bodinnick, Cornwall. Sewage from Bodinnick currently discharges into the River Fowey with no treatment. The National Environment Programme requires biological treatment for Bodinnick sewage under the Urban Waste Water Treatment Directive. In order to meet these requirements, South West Water Limited propose to transfer the sewage to Fowey Sewage Treatment Works. In order to do this a new PS and CSO is required.

It is proposed the PS will have an emergency overflow only. Emergency overflow operation only occurs as a result of mechanical or electrical failure and it is proposed the PS will be equipped with telemetry to warn of failure and have emergency storage. The proposed new CSO will only operate during storm conditions and any overflow will be screened prior to discharge.

These proposals should result in an environmental improvement over the current situation, replacing the existing continuous crude sewage discharge with two intermittent discharges.
