Stockholm, August 9.

ON the 3d Instant Sir John Norris and Rear-Admiral Hopson came hither from the Fleets at Capel-Share, and are both still in Town. The 3d being the Birth-Day of the Landgrave of Hesse-Cassel, the King and Queen received the Compliments of the Chief Persons of Quality on that Occasion at Carlberg, in the Evening their Majesties came hither, and at Night there was a Ball. On the 4th the King found himself indisposed, and continuing so the two following Days, his Majesty resolved to go and drink the Mineral Waters at Wyksberg, about six Leagues from hence; whither he accordingly went on the 7th. The Queen came the same Day from Carlberg to the Palace here.

Cadix, Aug. 12. The Flota is expected Home from the West-Indies before the End of this Month. Thirteen Pieces of Cannon and two Mortars were lately sent from hence to Ceuta. The three Spanish Men of War of 50 to 60 Guns each, which carried the Spanish Cardinals to Italy, are now at Alicant: It is said they are to join the Dutch Vice-Admiral, who is now in this Bay with four Ships of his Squadron of 50 Guns each, and cruize against the Algerines. Wheat and Barley being very cheap in these Parts, great Quantities have been sent lately to the Canaries, where for some Time past the Inhabitants have been in great Want of Corn. On the 9th Instant died Mr. Charles Russel, His Britannick Majesty's Consul at St. Lucar.

Berne, Aug. 20. The Deputies of this Canton who went to the Dyet at Frawenfeldt, are now assembled at Baden with those of Zurich and Glaris, to regulate certain Affairs relating to the Town and County of Baden, which formerly belonged to the Eight eldest Cantons, but in the last Swiss War was given up to Zurich and Berne in Pro-

priety, with a Reservation to the Canton of Glaris (which is mostly Protestant) of the Share it had before in the Sovereignty of that District. The three Deputies of Zurich, Lucern and Ury, who were commissioned by the late General Dyet to go to Wilchingen, to try to compose the Differences which have been long standing between the Inhabitants of that Place and the Canton of Schafhuysen whose Subjects they are, have offered those Inhabitants a full Pardon for all past Misbehaviour, and the Maintenance of their Privileges for the future, provided they forthwith return to their Duty; but it is advised that those of Wilchingen persist hitherto in their Disobedience.

Hambourg, Aug. 26. On the 22d Instant in the Evening, the Prince Royal of Denmark, with the Princess his Consort, passed through this City, our Artillery firing during their Passage. Their Royal Highnesses took up their Lodging at a Country Seat in this Neighbourhood, between Altena and Ottensee; whither the Magistrates of this Place, and other Persons of Distinction, went to make them their Compliments. This Morning their Royal Highnesses set out from thence for Sleswick, where they will be met by the King and Queen of Denmark with a numerous Court.

Paris, Aug. 30. On the 28th the King assisted for the first Time since his late Indisposition at the Council of Regency. His Majesty has granted the Privilege of entering at all Hours into his Bed-Chamber, to the Duke of Bouffleurs, the Duke de Monmorency, and to his Brother the Count de Ligny. We have an Account from Port Louis of the 22d Instant, that M. de Blangy, Commander of some Ships the India Company sent a Year and a half ago to the East-Indies, was arrived in that Port with the Ship called Le Solide. Two other Ships under his Command, and which belong to the same
