Leghorn, November 27.

THE Troops which lately arrived from Spain, are encamped in the Neighbourhood of Orbitello. The Guards, to the Number of near 1000, are to be here To-morrow from Florence, and 3000 Militia are ordered to be in Readiness upon the first Warning.

Leghorn, Dec. 4. Last Thursday General Montemar arrived at Porto Specie in a Genoese Gally; and as the Weather has been since favourable, he is supposed to be by this Time at Porto Longone, or Orbitello. We hear as yet of no Motion of the Spaniards, but suppose they wait his Arrival. The few Horse that remained here, marched this Morning for Lombardy. General Braitwitz is making all possible Preparations for the Defence of this Place, if attacked.

Vienna, Dec. 6, N. S. The last Post from Bohemia is not yet arrived. The Queen's Army had retired two German Miles this Side of Prague, where it is said that the Elector of Bavaria is lodged at the Castle, and treats every Body very kindly. He has desired that the usual Assemblies might be continued, and has promised to honour them with his Presence. The Queen has raised Major-General Lentulus to the Rank of Lieutenant Field Marshal. It is said that young Daun's and Damnitz's Regiments, which are in Garrison at Fribourg, are ordered to go to the Tyrol. Count Bathiani, Brother to the Chancellor of Hungary, is arrived at Presburg from the Army, as is also Prince Liechtenstein. Marshal Khevenhuller, who returned last Night from Presburg, will set out in a few Days for the Army which is assembling near Upper Austria.

Presbourg, Dec. 6, N. S. It is reported that the Magazine at Prague is not so considerable as was given out before the Loss of that Town, there being as is said Provisions there for no more than six Weeks. In the Magazine surprized lately by the Austrians

at Freistad, between Lintz and Budewitz, were found 2000 Pair of Shoes, a compleat Furniture for a Regiment, and so considerable a Quantity of Meal as would employ 3000 small Carts, such as are used in that Country, to carry it off; but as it is a Mountainous Country, and the Enemy has taken away all the Horses, the Austrians will, it is feared, be obliged to destroy the Magazine. It is thought that the main Army will form a Postering from Budewitz to Tabor, and from Tabor towards Iglow so as to cover the Austrias and Moravia. The first Column from Italy is expected in Austria on the 8th. The Queen of Hungary removes to Vienna on the 11th Instant. The Arch Duke will be sent thither To-morrow.

Turin, Dec. 9, N. S. Orders have been lately issued for the Regiments of Guards, Savoy, Montferrat, and others, to move towards Casal, Valencia, Alexandria and Tortona, in the Neighbourhood of which last Place, Contracts are making for Forage. A great Number of Boats and Barges are getting ready for transporting Artillery, Ammunition, Stores and Provisions; and Collars and Harness are preparing for the Horses belonging to the Train. Circular Letters are issued to all the Officers who are Absent, to return immediately to their respective Regiments.

Berlin, Dec. 12, N. S. The Great Duke is now said to be marching back towards Moravia and the Upper Austria; and that a great Body of Troops, consisting chiefly of Bavarians, is marched after the Austrians, to observe their Motions. The Elector was proclaimed King of Bohemia on the 3th Instant, and this Day was appointed for the Meeting of the States of that Kingdom, to take the Oath of Fidelity, and to do Homage.
