*Turin, May 22, N. S.*

**T**HE King of Sardinia has been to visit the Fortifications of Demont and Coni, and was four Days absent on that Progress. By all Accounts, the Repairs made to the former, and the new Works erected at Coni, will fully answer the Views of this Court, and sufficiently cover the Frontier of Piemont on that Side.

*Turin, May 29, N. S.* The Day before Yesterday the Marquis d'Ormea was seized with an apoplestick Fit, and died this Morning about Ten o'Clock.

*Genoa, May 29, N. S.* The Cavalry of the Spanish Army, under the Command of M. de Gages, advance very slowly, being with Part of the Infantry at Rapallo and the other Villages between that Place and this City, where they halt, until they have consumed all the Forage, to prevent the Austrians from following, by depriving them of all Hopes of Subsistence. Some small Parties arrive daily in the Bisagna, and march over the Hills into the Polcevera, where they have seized all the Passes and Avenues that lead to this City, stopping and visiting all Persons that come in or go out. Hitherto the Troops observe a strict Discipline, and pay for what they want. The Commissaries are endeavouring to contract for drawing the Train of Artillery up to Tortona. Yesterday arrived two large Barks from Naples, each having three Pieces of Cannon and three Mortars, with all the necessary Ammunition. These two Vessels were in Company with another likewise loaden with warlike Stores, from whom they separated three Days before. The Letters from Naples received this Morning, mention the Departure from thence of 15 Vessels, all loaden with Artillery and Stores. The Vessels loaden with Ammunition from Barcelona, which were got to Monaco, have been ordered for their greater Safety to return back to Villa Franca, where they now are with the three French Men of War, expecting four others that are fitting out at Toulon, which, it is said, are to be joined by a Squadron of eight Gallies from Marseilles. The 23d Instant Prince Lobcowitz decamp'd from Parma with 14 Regiments of Infantry, and seven Regiments of Cavalry and Hussars, besides a Body of Lycaneers, and are marching towards Tortona, where he

will halt to observe the Motions of the Spanish Armies in this State. It is reported, that upwards of 10000 Men of Regular Troops and Recruits are arrived in the Mantuan State to reinforce his Army. This Republick continue their military Preparations. The Marquis Grimaldi has been to confer with the Duke of Modena and M. de Gages, and upon his Return hither Marquis Durazzo was sent to Nice to have a Conference with the Infant Don Philip. Several Pieces of large Cannon, which were mounted on the Walls of this City, have been taken away and put in the Arsenal, and others of a smaller Size placed in their Stead. This Republick have at last determined to form a Camp near Novi; and two Days ago their Lieutenant General Count de Cecil set out from hence, in Company with M. Villier Camp Marshal, and three Engineers in their Service, to visit the Fortification of Gavi, from whence they are to go to Novi to mark out the Ground for the Incampment of their Troops. They have entered into a Contract for the supplying their Troops with 30,000 Rations of Bread weekly, and another has been made to supply the Community of Novi with 3000 Mines of Corn monthly, which being twice as much as the ordinary Consumption of the Place, the Surplus, it is supposed, will be applied for the Support of their Army.

*From the Saxon Head Quarters at Landshut, June 6, N. S.*

We are not yet able to declare the Loss of the Combined Army, but in all Appearance it will not be found to be much more than that of the Prussian. The Grenadier Companies of the Auxiliary Corps joined the Army the Night before last, but four of them, with Colonel Schonberg and Lieutenant Colonel Gersdorff who commanded the said four Companies, were missing. The Rutowski Regiment of Light Dragoons and the Pulcks of Uhlans likewise came in. Yesterday the Combined Army made a short March, and is disposed in such a Manner, as to cover the two Ways to Trautenau and Schimberg, by which we marched out of Bohemia into Silesia, and also the Magazines behind. This Position gives an Opportunity to our People that were separated to join the Army. We are raising some Batteries To-day in our Camp here, for employing in its Defence, in case

( Price Two-Pence. )
