Leghorn, August 6, N.S.

HE Republick of Genoa is erecting a strong Battery to the Eastward of the City, near the Lazaretto, which is design'd to flank the others towards the Sea, and render the City more secure from any Attempts of a Bombardment, which the Republick seem to apprehend; the Government had also signified to the Consuls residing there, that they would, for the future, examine all Vessels that might arrive in Port, lest they be Enemies, or filled with Combustibles to blow up the City. On the 22d path, General Schulemberg's Head Quarters was fixed at Reverone, having the Tanaro in Front, his Right extended to Alexandria, and the Left to the Po. The Army had been reinforced with four Regiments of his Sardinian Majesty's Cavalry and 10 Battalions of Infantry, seven Battalions more were in full March also to join the Austrian Army. The whole Riviera to the Westward is in Arms, occasioned by the daily Incursions of the Piedmontese; and the County of Albenga has proited, that rather than suffer it to be ruined, they will submit to his Sardinian Majesty. Letters from St. Remo of the 27th advise, that Count Lautrech was daily expected at Nice with hine Battalions, and it was reported he would ! besiege the Castle of Savorgio. Two French Gallies are arrived at Monaco with fix Field Pieces and a Quantity of Ammunition.

Leghorn, August 9, N.S. Two Days ago his Britannick Majesty's Ship the Lowestoff, brought in here Six Vessels under Neapolitan Colours which were bound to Genoa, loaden with Provisions for the Spanish Army.

Journal of the Saxon Auxiliary Army in Bohemia, from the 13th to the 14th of August, N.S. dated from their Head Quarters at Johannif-berg near Konigingratz.

JPON the 13th we had Advice from Upper Silesia, that the Prussians having received a Check from the Insurgents there, had been obliged to retire to Neisse, in order to post themselves under the Cannon of that Fortress.

We also heard from the County of Glatz, that a Party of Austrians had dispersed a Troop of Prussian Hussars between Wunschelbourg and Politz.

Major General St. Andre sound Means to send some sew of his Men into Habelschwerdt, who destroyed twenty Ovens lately built there for the Use of the Prussians.

The Prussian Corps, which retired some Days ago from Zwol, according to our last Advices, continues its March by Skalitz to Nachod; and it has fince been followed by the Sick and the Baggage by the Road of Schwiritz upon the Confines of Glatz, to which Place, as well as to Falkenstein and the neighbouring Countries, Orders have been fent from the King to hasten the Harvest as much as possible. Lieutenant Colonel Monro sent us Advice, that the Uhlans having the Day before fent a Patrol to the other Side of the Metau to reinforce that already there, they had been attacked by a Troop of so Prussian Horse, who retired afterwards towards an Ambush of their Foot, in order to draw the Uhlans after them. General Nadasti having had Information thereof, detach'd 200 Huffar's to support the Uhlans, and thereupon the Piuffian Foot coming out of their Ambush, fired upon them; and then refreated into the Suburbs of Neustadt. Immediately General Nadasti ordered Rudnicki's Pulk of Tartars and his Hussars to invest that Town, and summon'd the Garrison twice by a Trumpet to surrender Prisoners of War. The Commandant return'd for Answer, that so far from complying with the Summons, he was determined to defend the Town. In the Afternoon two Prussian Battalions, and seven Squadrons, with four Pieces of Cannon, were fent from Nachod to the Assistance of Neustadt. But the seven Squadrons having detached themselves a little from the Foot, General Nadasti ordered his Regiment, and the Transitivanians lately arrived, to pass the Metau, and ranged them in one Line in order of Battle. This Difposition obliged the Prussian Foot to return forthwith with their Cannon towards Nahorzan, from whence, having let the Cavalry file off by a Defile, the Infantry afterwards took the same Road; and after having fired feveral Pieces of Cannon, the Whole marched towards Nachod. Count Nadasti had formed a Design to scale the Town of Neustadt, but as the Enterprize would have been too hazardous, on Account of the advantagious Situation of the Castle, which is furrounded with strong Walls, the Generals and Chiefs of his Corps opposed it, so that that Scheme was abandoned. The same Night we had Advice, that five Prussian Battalions, with 42 Pieces of Cannon, had also been sent from

Colonel Frenk arrived from Jagerndorff with two free Companies. His Regiment, which consists of 3000 Men, is also in March to join the Army here,
