*Naples, September 25.*

**T**HE Count de Conversano having threatened to murder one of his Servants for demanding his Dismission, and the Servant thereupon applying to the Alcaide of the Court for Justice, the Alcaide sent to desire the Count to comply with the said Servant's Request; but the Count despising the Message, gave Occasion to the Alcaide to make Representations thereof to the King, who ordered immediately the Count into Confinement in the Castle Nuovo. On the 17th Instant the King nominated M. Ciocche to succeed to the vacant Bishoprick of Brindisi.

*Rome, Oct. 3.* Cardinal Querini has received a Courier with Dispatches from the Senate of Venice for him and Cardinal Rezzonico, relating to the Affair of Aquileja; to reconcile which, an Expedient is proposed to suppress that Patriarchate, and to form, instead of it, two Archbishopricks, one in Gorizia, in the Empress's Dominions, and the other at Udine, in the State of Venice. On the 23d past, being the King of Spain's Birth-day, Cardinal Portocarrero was complimented by the Foreign Ministers, the Cardinals, Prelates and Nobility, Subjects, Feudatories, and Well-wishers of that Crown; on which Occasion he entertained fifty of them at a most magnificent Dinner.

*Warsaw, Oct. 5.* Several of the Nobility and Foreign Ministers are set out this Morning for Dresden, and their Majesties Departure remains fixed for the 8th Instant, the Relays being already ordered. Their Majesties propose reaching Kuttno on the 8th in the Evening, and on the 9th Kleczow, the 10th Posenia, the 11th Bauchwitz, and the 12th Pforten. The Ladies of Honour, and the principal Officers of the Court, set out also on the 8th, and take their Route by Way of Breslaw. The last Advices from the Ukraine say, that a considerable Party of Heyducks had been entirely defeated on the 20th of last Month, by a Detachment of Soldiers from the Crown Army.

*Stockholm, Oct. 6.* Last Week publick Prayers were put up in all the Churches of this Kingdom, to beseech the Almighty to deliver us from the Contagion which still continues to rage very much amongst the horned Cattle, not only in the Neighbourhood of this City, but also in sever-

al of the Provinces of this Kingdom: And as it is apprehended that this Distemper may be attended with dangerous Consequences to such as may happen unknowingly to eat of the Flesh of any infected Beast, the Royal College of Physicians have drawn up, and caused to be printed, by order of the King and Senate, some new Instructions for the Inspectors of Provisions, with Regard to their viewing all Beasts that shall be killed for publick Use.

*Vienna, Oct. 7.* By Advices received from Bosnia we are assured, that the Janissaries have revolted against the Governor of that Province, who having sent a Body of other Troops against them, an Action ensued, in which above 700 Men had been killed, and that the Bashaw had been obliged to send to Constantinople for Succours. That the Bashaw of Belgrade being apprehensive of something of that Kind, had found Means to persuade the Janissaries in his Government to swear they would comply with the Orders of the Porte, which he said he had just received; and as soon as they had taken the Oath, he informed them, that the Sultan's Orders were, that one Part of them should march directly towards Bender, and the other to some very remote Place; which raised so great a Ferment amongst them, that they seized the Tchaoux of the Porte, and had him in their Hands when the Letters came away; however, it was hoped they would release him, and obey the Orders of the Porte.

*Dresden, Oct. 11.* Their Majesties are expected To-morrow at Pforten, a Seat of Count Bruhl's in Lusatia; it is thought his Majesty will stop there two or three Days to take the Diversion of Hunting. The King's heavy Baggage is already arrived in this City from Warsaw. Advice has been received, that in the Night between the 8th and 9th Instant, some Rogues had found Means to break into the Castle of Niechwitz, belonging to the Prime Minister Count Bruhl, and had carried off every Thing that was valuable in it. Several Detachments of Horse have been sent out in Pursuit of these Robbers, but we have not as yet learnt that they have heard any Thing of them.

*Berlin, Oct. 13.* The King of Prussia has lately given a Pension for Life to M. Voltaire of 5000 Rixdollers per Annum; and on the 2d Instant, that Author's new Tragedy of Cataline was
