Navy Office, April 2, 1752.

As the passing the Accountis of Sir John Ruskout and George Dodington, Esq; late Treasurers of his Majesty's Navy, are carrying on with all the Expedition that may be, it is recommended to such Persons as have had Bills assigned upon them by the Navy Board, and have not receiv'd their Money for the said Bills, forthwith to call for the same; and all Persons who have any Imprests standing out against them, and have not any Bills or Accounts in this Office to clear the said Imprests, are desired forthwith to bring in their Bills or Accounts to discharge them, that so the said Imprests may not be brought to account and return'd into the Exchequer, as otherwise they will be; and such Persons as have passed their Accounts, and have not taken up their Imprests, are required to carry their perfect Bills to the late Treasurers Office, and to take up their Imprests.

Trinity House, Hull, April 13, 1752.

Whereas the Low Light of the Spurn was washed down in December last, and since then has been set up again: And Complaint thereof hath been made to this House by several Ship Masters, That the same is now fixed too nigh the high Light, and not at the same Point of the Compass as before; so that the same Lights differ very much in the Opening and Shutting of them, and in their being in one (or over End) to the great Danger of all Ships upon the Coast, and especially to such as come into, or go out of the Humber, and some have already been deceived thereby: Therefore this House have taken a Survey of the said Lights as they now are, and do hereby give Notice, That the said High and Low Lights are now only about 70 Feet asunder (not more than one Third of the Distance they ought to be and were before) and when over End, bear North North West, half West, and before they can open, either to the Northward or Southward Ships must run over much Ground; on which Account (until the said Low Light is more properly placed for the Safety of Navigation, and Notice thereof given) it is adviseable for all Persons to depend on the High Light only, for directing them to keep clear of the Sands.
