

off the clear Part of the Water. Repeat this fifteen or twenty Times, or till the clear Water, which is poured off, be almost tasteless, leaving about Five Pints of Water upon the Lime, after the last Ablution: Then pour this Mixture of Water and dulcified Lime upon Five Pounds of Alicant Soap; shaved, and proceed as above directed. The Mass thus prepared will be fit for Use in a few Days, or even immediately.

If the Mass of Soap and Oyftershell Limé, dulcified in either of the above-mentioned Ways, be made of the Consistence of an Electary, I call it the Lithon- triptic Electary. This Form is more convenient than the Mass, for those who desire to take the Medicine dissolved in a liquid Vehicle: The most suitable ones are Milk, Water sweeten'd with Honey or Sugar, Water flavour'd with Wine, Brandy, or Rum, and Small-Beer.

Where a Person is supposed to have a large Stone in the Kidney or Bladder, he ought to take every Day as much of the Lithon- triptic Mass, or Electary, as contains two Ounces of the Soap, unless his Pain and Provocation to make Water be violent; in which Case it will be proper to begin with about Half this Quantity, and to increase it as he can bear. The Medicine ought also, in this Case, to be dulcified in an extraordinary Degree.

The Generation of Gravel and Gravel-Stones may be entirely prevented by this Medicine: It is like wise of great Service in Disorders of the Stomach and Bowels, arising from, or attended with Acidities there, and in gouty Habits. The Patient may, in any of these Cases, begin with such a Quantity every Day, as contains an Ounce of Soap, and afterwards increase or lessen his Quantity as he finds Occasion.

Hull, April 12, 1753.

WHEREAS a Bale of Woollen Cloth, return'd, was put on Board the Ship Amsterdam Merchant, of Hull, at Amsterdam for Hull, in the Month of October 1750, without any Bill of Loading, or giving Directions whatsoever unto whom the said Bale should be delivered at Hull; and therefore Joshua

Haworth, the Commander of the said Ship, was, on his Arrival at Hull, obliged to enter the said Bale in the Custom-house, and pay the Charges attending the same, and so lodge it in a Warehouse at Hull, until called for, and where it now lies: Notice is therefore hereby given, That the said Bale is ready to be delivered to such Person as shall have a legal Right thereto, and shall challenge the same by it's Mark and Contents, and naming the Person and his Place of Abode, who ordered the same to be shipped at Amsterdam, and paying the Freight and all Charges thereon.—But if the said Bale is not challenged in two Months from this Date, then it will be publickly sold by the said Joshua Haworth, to prevent Damage thereto by long lying, and the Money will lye in his Hands ready for the Proprietor when known.

DESERTED from the Honourable Colonel Duroure's Regiment at Antigua, in October 1752, the following Men.

Thomas Lester, Aged 25, Height 5 Feet 9 Inches 3 qrs. a Labourer, light brown Hair, Born at Harthill in Yorkshire.
