From Tuesday June 25, to Saturday June 29, 1754.

Naples, May 28.

AN extraordinary Council was held a few Days ago at Portici, upon some new Propositions made to his Majesty for terminating the Disputes between this Court and the Grand Master of Malta. On Tuesday last four of the King's Gallies sailed from hence on a Cruize against the Barbary Pyrates, who have of late greatly interrupted the Commerce in the Seas of Palermo. Last Week about fifty Recruits arrived here from Albania, in order to compleat the new Battalion of the Royal Regiment of Macedonia.

Rome, June 2. On Monday last the Pope set out, with the whole Court, for Castel-Gandolfo, in order to spend the Summer at that Palace; before his Departure, he disposed of several Benefices vacant by the Deaths of the Cardinals Levizanni and Tanara. The Cardinals Stoppani and Serlate have also left this Place, the first being gone to his Legation at Urbino, and the other to take Possession of the Archbishoprick of Naples. The Differences that have for a long Time subsisted between this Court and the Regency of the Grand Duke of Tuscany, being at length amicably adjusted, M. Biglia is preparing to set out for Florence, in order to re-assume his Functions of Apostolick Nuncio.

Milan, June 7. The Conferences that were to have been held at Vaprio the Beginning of this Month, for finally regulating the Limits between the Dominions of her Imperial Majesty and those of the Republick of Venice, are deferred on Account of the Indisposition of Count Christiani, one of the Commissaries, who is confined to his Bed.

Vienna, June 8. Her Imperial Majesty, and the young Archduke of whom she was lately delivered, are as well as can be expected. Cardinal Serbelloni, who has resided here for some Years in Quality of the Pope's Nuncio, left this Place last Tuesday on his Return to Italy; and M. Crivelli, who is appointed to succeed him, is daily expected from Brussels. Count Wallis, Commander in Chief of the Imperial Troops in Transilvania, who arrived here a few Days ago from Hermanstadt, has been introduced to his Imperial Majesty, and met with a gracious Reception.

Nurembourg, June 10. On Friday last seventeen Vagabonds were secured by a Detachment of Granadiers, and brought to the Prisons in this City, on Suspicion of having lately committed several Robberies on the Highway between this Place and Hailbron.

Dresden, June 12. Their Majesties intend to set out for Poland on Monday next, every Thing being now ready for their Departure. A grand Firework is preparing in the Arsenal of this City, which is to be sent to Moscow, in order to be played off there on the 3d of August next, being the Feast of St. Frederick, whose Name the King bears.

Hague, June 20. The Emperor has notified, by Letter to the States General, the happy Delivery of her Imperial Majesty of an Archduke on the 1st Instant. M. Hofman is appointed to succeed M. Kluppel in the Post of Consul from this Republick at Tripoli. Yesterday M. Upmeyer took the usual Oaths to the Assembly of the States General, in Quality of Commandant of the Fort of Bourtange in the Province of Groningen. We are informed by our last Letters from Frise, that her Royal Highness the Princess Governante continues to enjoy a good State of Health at Oranje-Woud.

WINCHESTER RACES.

ON Tuesday the 20th Day of August will be run for on Worthy Down, his Majesty's Plate of One Hundred Guineas, by any Horse, &c. no more than six Years old last Grass, carrying twelve Stone, according to the usual Rules and Articles of his Majesty's Plates: Any Disputes arising to be determined by his Grace the Duke of Bolton, or whom he shall appoint.

By the KING'S PATENT.

HIS Majesty having been graciously pleased to grant His Royal Letters Patent, bearing Date at Westminster the 21st Day of May 1754, unto John Lewis, Merchant, in Plymouth, for his new invented Varnish of Pine, prepared from the Glutinous Juices of the American Pitch Pine Tree, proved by many Experiments made in His Majesty's Dock Yards, and many other private Docks, to be the cheapest and best Preparation for Paying Ships Sides and Masts, and for preserving Ships and Timber Buildings from the Weather, from the Worm, and from Decay of any Thing yet known. It is very tenacious and penetrating, and intirely free from that saline acid Water which is found in Turpentine in great Quantities; it will never turn White after Rain, but continues always of a bright Amber Colour, and very transparent; it must be laid on gold with a Brush, which may be done at Sea as well as in Harbour; and is of the Consistency of Linseed Oyl, boiled down very thick, and quite as smooth.—One Hundred Weight is sufficient to pay the Sides and Masts of a Ship of 250 Tons: This is therefore to acquaint the Publick, that the said Varnish is sold by the Patentee at Plymouth, and by Mr. Alexander French, Ship-Chandler, at Rotherhith.

IN the Year 1752 I was called to a Girl about eighteen Years of Age, by her Father, who told me she had lost her Speech twenty-four Hours. I found the Girl had no perceptible Pulse, and I could but just perceive her to breathe, except sometimes when she fetch'd a deep Sigh. Her Eyes were fixed, and her Extremities cold. In this deplorable Situation, I endeavoured to get down some of Dr. James's Fever Powder, mixed with a little Treacle. After several Attempts, she took the Quantity of a Quarter of a Paper. I found that in half an Hour she grew warmer, I could just perceive a Pulsation at the Wrist, and she breathed with Difficulty; soon after this she moved her Eyes, and in less than an Hour puk'd once, and then asked to drink. I gave her some Gruel, and half a Paper more of Powder (her Pulse was at this raised and quick). After taking this Dose she fell asleep, and a gentle Sweat came on her: And in about two Hours she awaked, had a Stool, and brought away several Worms of different Sizes. She complained of no Pain, except in her Belly. I now left her, with Directions to give her a Quarter of a Paper of Powder every six Hours; to keep her from getting Cold, and to give her Gruel to drink. She took four Doses of the Powder as above-mentioned, and sweated greatly for thirty Hours, during which Time she had several fetid Stools, and brought off a very great Number of Worms, some dead, but most of them alive. From this Time she began to recover, and in three Weeks was able to walk up a Hill, which a Difficulty of Breathing for six Months before had prevented her from doing. I gave her an Ounce of Elixir Proprietatis, to take some of it Morning and Evening. Her Stomach came to her, and she was perfectly well in five Weeks Time.
