

Copenhagen, July 30. On Saturday last the Danish Squadron of Men of War failed from the Sound on its Return to the Baltick. Yesterday the Frederick and Louisa, belonging to our India Company, arrived in our Road from Tranquebar, having on board a very valuable Cargo.

Berlin, Aug. 3. The King has conferred on M. de Wuthenow, Lieutenant Colonel of the Regiment of Foot of Kallenheim, the Post of Commandant of Pillau. M. de Borck, Lieutenant General of his Majesty's Armies, having obtained Leave to quit the Service, his Regiment is given to M. Zastrow. 'Tis said the King intends to set out in a short Time for Silesia.

Dresden, August 5. The King has ordered a Number of Workmen to be taken from the Mines of Freyberg, and employed about strengthening the Fortifications of Konigstein. By our last Advices from Bohemia, the Preparations for forming the Camp near Colin, go on with great Diligence; and we are likewise informed, that another Camp is also forming near Hollitschau in Moravia.

Dresden, Aug. 8. The Cannoniers, who have been preparing Cartridges, &c. for this Month past, at the Arsenal in this City, returned last Wednesday to their Garrison at Freyberg. They are now employed in repairing the Pontoons. 'Tis assured that the whole Artillery in the Arsenal will be removed from hence to Konigstein, which Place is now strongly fortifying. We hear from Bohemia, that the Austrians, who are forming a Camp there, have entirely prohibited the Exportation of Corn, and all Kinds of Provisions whatsoever, out of that Country.

Hague, Aug. 10. We have received Advice from Dieren, that her Royal Highness the Princess Governante, and her Children, arrived there Yesterday in perfect Health.

Brussels, Aug. 13. According to the last Advices received by the French Court from Quebec, it appears that a contagious Distemper had broke out on board the Leopard, a 64 Gun Ship, belonging to the Squadron that failed from Brest on the 26th of March, with the Reinforcements for Canada, under the Command of M. de Moncalm. The two Captains, several subaltern Officers, and a great Number of Sailors and private Soldiers were carried off by this Distemper, the Consequences of which were so much apprehended, that the greatest Precautions were used at Quebec, to prevent the spreading of the Infection, and the Ship even condemned to be burnt with every Thing on board. Letters from Brest advise, that the Diadem, a new Ship of 74 Guns, had so bent her Keel in Launching, that she is deemed quite unfit for Service.
