## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017

### 1 ACCOUNTING POLICIES

#### 1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain items as permitted or required by FRS 102 as explained in the accounting policies set out below.

These financial statements have been presented in accordance with FRS 102 Section 1A – The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

The company meets its day to day working requirements through a bank overdraft facility which is repayable on demand. Additionally, loans have been provided from the directors. The directors consider it appropriate to prepare the financial statements on a going concern basis, having confirmed their continuing support and that of the company's bankers.

#### 1.2 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Revenue from the sale of goods is recognised when goods are delivered and legal title has passed.

#### 1.3 Tangible assets

Tangible fixed assets held for the company's own use are stated at cost less accumulated depreciation.

Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives, on the following bases:-

Refrigeration plant and equipment	:	10% per annum - reducing balance basis
Fixtures, fittings and equipment	:	10% per annum - reducing balance basis
Ice cream vans	:	10% per annum - reducing balance basis
Other vans	:	25% per annum - reducing balance basis

A provision for depreciation has not been made against the revalued freehold land and buildings as the directors are of the opinion that development market value of the site is in excess of the current valuation based on an open market, existing use, basis.

#### 1.4 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell (net realisable value). Costs, which comprise direct production costs, are based on the method most appropriate to the type of inventory class, but usually on a first-in-first-out basis. Overheads are charged to profit or loss as incurred. Net realisable value is based on the estimated selling price less any estimated completion or selling costs.

When stocks are sold, the carrying amount of those stocks is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of stocks to net realisable value and all losses of stocks are recognised as an expense in the period in which the write-down or loss occurs. The amount of any reversal of any write-down of stocks is recognised as a reduction in the amount of stocks recognised as an expense in the period in which the reversal occurs.

#### 1.5 Taxation

Deferred taxation is provided on the revaluation reserve arising on the revaluation of the freehold land and buildings. The deferred tax is not charged to the Profit and Loss Account.

#### 1.6 Pensions

The company operates a defined contribution pension scheme via the National Employment Savings Trust (NEST) and the pension charge represents the amounts payable by the company to NEST in respect of the year.
