The Company is a wholly owned subsidiary of DS Smith Holdings Limited and operates as part of the DS Smith Group ('the Group'). The financial key performance indicators on which the Company is measured are as shown in the income statement and the statement of financial position shown on pages 7 and 8 respectively. We do not consider there to be any non-financial key performance indicators relevant to the entity other than those listed in the Group financial statements. Liquidity risk

The Company actively manages its liquidity risk by short-term debt finance with the DS Smith Group treasury function, supported by external borrowings where appropriate, designed to ensure the Company has sufficient available funds for operations.

Credit risk

The Company's credit risk is primarily attributable to its receivables held on the Statement of Financial Position, all of which are inter-Group. Recoverability of these receivables is reviewed regularly against the statement of financial position of the counterparty.

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out above. The financial position of the Company is as shown in the Statement of Financial Position on page 8.

The Company's ultimate parent Company and controlling party is DS Smith Plc, whose financial statements include the Group's objectives, policies and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposures to credit risk and liquidity risk.

The Company has access to considerable financial resources from across the DS Smith Group. As a consequence, the Directors believe that the Company is well placed to manage its business risks successfully despite the current uncertain economic outlook. Taking into consideration the financial performance and financial position of the Company, they continue to adopt the going concern basis in preparing the financial statements.

Further details regarding the adoption of the going concern basis can be found in note 1 to these Financial Statements.

Directors' responsibilities statement

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101).

Under company law the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 April 2017 and of its profit for the year then ended;

Matters on which we are required to report by exception

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the Directors were not entitled to take advantage of the small companies exemption from preparing a Strategic report or in preparing the Directors' report

1. Principal accounting policies

Basis of preparation

The financial statements of the Company have been prepared on the going concern basis and in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101) and the UK Companies Act. The amendments to FRS 101 (2014/15 Cycle) issued in July 2015 and effective immediately have been applied.

The Company is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales. The address of the Company's registered office is shown on page 1. The nature of the Company's operations and its principal activities are set out in the Directors' Report on pages 2 to 3.

The financial statements are prepared under the historical cost convention.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- Statement of Cash Flows and related notes;
- a comparative period reconciliation for share capital;
- disclosures in respect of transactions with wholly owned subsidiaries;
- disclosures in respect of capital management;
- the effects of new but not yet effective IFRSs; and
- disclosures in respect of key management personnel.

As the Group financial statements include the equivalent disclosures, the Company has also taken advantage of the exemptions under FRS 101 available in respect of the following disclosure:

- IFRS 13 *Fair Value Measurement* and the disclosures required by IFRS 7 *Financial Instruments*.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all years presented in these financial statements.

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the Company operates.

Interest receivable

Interest receivable is recognised on an accruals basis in the Income Statement.

Financial assets and liabilities

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are initially measured at transaction price and, where applicable, are subsequently measured at amortised cost. Financial assets and liabilities are only offset in the statement of financial position when, and only when, there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. Financial assets are derecognised when, and only when, a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party. Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Taxation

Income tax on the profit or loss for the year comprises of current tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the reporting date, and any adjustment to tax payable in respect of previous years. In accordance with Group policy, the Company surrenders current year tax losses to other members of the DS Smith Group, and receives payment for those tax losses at the rate of tax prevailing in the year.

Going concern

The financial position of the Company is as shown in the Statement of Financial Position. The Company's ultimate parent company and controlling party is DS Smith Plc, whose financial statements include the Group's objectives, policies and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposures to credit risk and liquidity risk.

The Group has access to considerable financial resources which would be available to the Company if necessary. As a consequence, the Directors believe the Company is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The Directors have formed a judgement at the time of approving these financial statements, that there is a reasonable expectation that the Company and Group have adequate resources to continue in operational existence for the foreseeable future. Accordingly, they have continued to adopt the going concern basis in preparing these financial statements.

The difference between the actual tax charge and the standard rate of corporation tax in the UK of 19.92% (2016: 20.00%) is as follows:

	2017 £'000	2016 £'000
Profit before tax	4	4
Income tax at the UK standard rate of corporation tax of 19.92% (2016: 20.00%)	(1)	(1)
