UNAUDITED ACCOUNTING POLICIES

ACCOUNTING CONVENTION

The financial statements are prepared under the historical cost convention

TURNOVER

Turnover represents the value net of Value Added Tax, of goods sold and services provided to customers

TANGIBLE FIXED ASSETS AND DEPRECIATION

Fixed assets are stated at historical cost less depreciation

Depreciation is provided on all tangible fixed assets at rates calculated to write each asset down to its estimated residual value evenly over its expected useful life as follows -

Land and buildings

2% on cost

Fixtures fittings & equipment

10% reducing balance

LEASING

All other leases are operating leases, and the annual rentals are charged to profit and loss on a straight line basis over the lease term.

STOCK

Stocks and work in progress are valued at the lower of cost and net realisable value. Net realisable value is based upon estimated selling price less further costs expected to be incurred to completion and disposal. Provision is made for obsolete and slow-moving items.

DEFERRED LAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. The deferred tax provision is not discounted.

FORFIGN CURRENCY TRANSLATION

Assets and habilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the average rate for the year. All differences are taken to the profit and loss account.
