For the year ended 30 April 2019 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Director's responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The director acknowledges his responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts and reports have been delivered in accordance with the provisions applicable to companies subject to the small companies regime and the option not to file the profit and loss account has been taken.

These accounts were approved and authorised for issue by the director on 10 September 2019

G L Chapman Director

The address of its registered office is: Leigh House 28-32 St Paul's Street Leeds LS1 2JT

The principal place of business is: 23 Mount Street Harrogate HG2 8DQ

2 Summary of significant accounting policies

Basis of preparation

The accounts have been prepared in accordance with applicable accounting standards including Section 1A of Financial Reporting Standard 102 (2015) "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS102) and the Companies Act 2006.

The accounts have been prepared on a going concern basis under the historical cost convention, modified to include certain items at fair value. The presentation currency is £ sterling.

The significant accounting policies applied in the preparation of these accounts are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

Turnover

Turnover is measured at fair value of the consideration received or receivable, net of discounts and value added tax. Turnover includes revenue earned from the sale of goods.

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods has transferred to the buyer. This is usually when the goods have been delivered to customers such that the risks and removal of ownership have been transferred to them.

Pension contributions

The Company has a defined contribution pension scheme. The pension costs charged to the profit and loss account are the contributions payable in respect of the accounting period.

Taxation

The tax expense for the period comprises current tax and deferred tax.

Current tax is recognised for the amount of corporation tax payable in respect of the taxable profit for the year using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Goodwill

Goodwill arising on the acquisition of an entity represents the excess of the cost of acquisition over the company's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the entity recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less accumulated amortisation and accumulated impairment losses.

Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Oatlands Tyre & Motor Company Limited Annual Report and Unaudited Accounts Notes to the Accounts for the year ended 30 April 2019

Depreciation

Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets over their expected useful lives. The annual rates and methods of depreciation are as follows:-

Asset class

Fixtures and equipment

Motor vehicles

Depreciation method and rate ...

20% straight line basis

25% reducing balance basis

Impairment of fixed assets

At the balance sheet date, if there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared to its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised in the profit and loss account. The reversal of an impairment loss is recognised immediately in the profit and loss account.

Stocks

Stock are stated at the lower of cost and estimated selling price less costs to complete and sell.

Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method, less any impairment.

Creditors

Short term creditors are measured at transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method.

3 Employees

The average number of persons employed by the company (including the director) during the year was as follows:
