BALANCE SHEET - continued 31ST MARCH 2018

The financial statements have been prepared and delivered in accordance with the provisions of Part 15 of the Companies Act 2006 relating to small companies.

In accordance with Section 444 of the Companies Act 2006, the Profit and Loss Account has not been delivered.

The financial statements were approved by the Board of Directors on 26th October 2018 and were signed on its behalf by:

MB Dabanovic - Director

J.V. Dabanovic

J V Dabanovic - Director

The notes form part of these financial statements

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

1. STATUTORY INFORMATION

Info Technology Supply Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Related party exemption

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax.

In respect of maintenance agreements, income therefrom is released evenly over the period of the agreement.

Tangible fixed assets

Leasehold improvements

- straight line over the length of the lease

Fixtures and fittings
Motor vehicles

- 20% on reducing balance - 25% on reducing balance

Motor vehicles
Computer equipment

- 33.3% on reducing balance

The above annual rates of depreciation are those rates used in the UK office. The company's branch in Spain provides depreciation on all classes of fixed assets on a straight line basis over 2 years. The branch in Serbia provides depreciation on its fixed assets at either 15% or 30% per annum, depending on the group of assets it falls within (as determined by the Serbian authorities).

Having taken into account the anticipated residual value of the freehold properties in Spain, and the long expected useful life of the assets, it is the opinion of the directors that the resulting depreciation charge is considered immaterial. Consequently, no provision has been made in this year's financial statements.

Investments in subsidiaries

Investments held as fixed assets are stated at cost less provisions for impairment. Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. Impairments are calculated such that the carrying value of the fixed asset investment is lower of its cost or recoverable amount.

Stocks

Stock and work in progress is valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31ST MARCH 2018

2. ACCOUNTING POLICIES - continued

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Research and development

Expenditure on research and development is written off in the year in which it is incurred.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company contributes to personal pension scheme for employees. The assets of the schemes are held independently of the company by an insurance company. The amount charged to the profit and loss account is the contributions payable in the year.

Consolidation of foreign branches

The results of the foreign branches in Spain, Serbia, France and Germany are incorporated into these financial statements by translating the profit and loss account balances at the average rates of exchange throughout the accounting period and the balance sheet balances at the year end prevailing rates.

All inter-branch transactions are excluded so that only third party transactions remain within these financial statements.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 89 (2017 - 83).
