The financial statements are presented in Sterling, which is the functional currency of the company.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of preparation of financial statements

These financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 Section 1A smaller entities 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' ('FRS 102') and the Companies Act 2006.

#### Revenue recognition

Income is measured at the fair value of consideration received or receivable and represents service charges receivable.

The company recognises income when the amount of revenue can be measured reliably and when it is probable that future economic benefits will flow to the entity.

#### **Financial Instruments**

The company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other accounts receivable and payable, loans from banks and other third parties, loans to related parties and investments in non-puttable ordinary shares.

Financial assets are measured at cost and are assessed at the end of each reporting period for objective evidence of impairment. Where objective evidence of impairment is found, an impairment loss is recognised in the income and expenditure account.

The impairment loss for financial assets measured at cost is measured as the difference between an asset's carrying amount and the best estimate, which is an approximation, of the amount that the company would receive for the asset if it were to be sold at the reporting date.

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is an enforceable right to set off the recognised amount and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.
