NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD ENDED 31 MARCH 1998

1. Accounting policies

The financial statements are prepared under the historical cost convention and incorporate the results of the principal activity which is described in the directors' report and which is continuing. The company has taken advantage of the exemption in FRS 1 from the requirement to prepare a cash flow statement on the grounds that it is a small company.

Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax.

Depreciation and diminution in value of assets

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Motor vehicles	- 25% straight line basis
Fixtures and fittings	- 25% straight line basis
Office Equipment	- 25% straight line basis

Deferred taxation

Provision is made for taxation deferred as a result of material timing differences between the incidence of income and expenditure for taxation purposes, using the liability method, only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the near future.

Leasing

Rentals paid under operating leases are charged to the profit & loss account on straight line basis over the term of the lease.

Pension costs

The company operates a defined contribution pension scheme and pension contributions are charged to profit and loss account to spread the cost of the pensions over the employees working lives.
