Notes to the Financial Statements

Year ended 31 October 2021

1. GENERAL INFORMATION

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is Unit 3B, Blenheim Road, Epsom, Surrey, KT19 9AP.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. ACCOUNTING POLICIES

3.1 Basis of preparation

The trading assets and liabilities of the Company were transferred to its immediate parent Company, Photo-Me International Plc, in June 2022 effective as of February 2022, and Director intends to dissolve the Company. The financial statements are prepared on a non-going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 ('the Act') and in accordance with FRS 102.

The principal activity of the Company will continue, albeit with its assets and liabilities under the ownership of a different Company. Therefore, historical cost is still considered an appropriate measurement basis and there is no indicator of impairment or reduced recoverable value. The assets and liabilities will be transferred to Photo-Me International Plc at their carrying values.

The financial statements are prepared in sterling, which is the functional currency of the entity. All amounts in the financial statements have been rounded to the nearest £1.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Year ended 31 October 2021

3. ACCOUNTING POLICIES (continued)

3.2 Disclosure exemptions

The Company's ultimate parent undertaking, Photo-Me International plc, includes the Company in its consolidated financial statements. The consolidated financial statements of Photo-Me International Plc are prepared in accordance with International Financial Reporting Standards as adopted by the EU and are available to the public and may be obtained from Photo-Me International plc, Unit 3B, Blenheim Road, Epsom, Surrey, KT19 9AP.

In these financial statements, the Company is considered to be a qualifying entity (for the purposes of FRS 102) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Reconciliation of the number of shares outstanding from the beginning to end of the period;
- From preparing a Cash Flow Statement in accordance with Section 7 'Cash Flow Statements';
- From providing the financial instrument disclosures, required under paragraphs 11.39 to 11.48A and paragraphs 12.26 to 12.29 as this information is provided in the consolidated financial statements of the ultimate parent entity;
- From disclosing the Company's key management personnel compensation as required by paragraph 7 of Section 33 'Related Party Disclosures'

The Company proposes to continue to adopt the reduced disclosure framework of FRS 102 in its next financial statements.

3.3 Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities at the balance sheet date and the amounts for revenue and expenses during the year. The nature of estimation, however, means that the actual outcome could differ from those estimates. The director considers that the critical accounting policies where judgements or estimates are necessarily applied are the useful lives tangible fixed assets.

Tangible assets

In setting the asset lives for plant and machinery management estimate the life of the asset and the period over which depreciation is charged. The director reviews the period over which depreciation is charged based on results and if the kiosks and other vending equipment will continue to offer products and services to satisfy consumer demand.

3.4 Revenue recognition

Revenue from operations of kiosks and other vending equipment is the cash received and held in machines net of value added tax and refunds.

Revenue from the sale of goods is recognised upon delivery and acceptance by the customer net of value added tax and refunds.

Year ended 31 October 2021

3. ACCOUNTING POLICIES (continued)

3.5 Other operating income

Other operating income includes net revenue (agent's commission) on web based sales (Livelink) and amounts receivable under the group's transfer pricing policy.

3.6 Current and deferred taxation

Tax expense for the current period comprises current and deferred tax and is recognised in the income statement, except to the extent that it relates to items recognised in other comprehensive income or equity.

The current tax charge is calculated on the basis of the laws enacted or substantively enacted at the statement of financial position date.

Deferred tax is provided in full on temporary differences arising between the tax base of assets and liabilities and their carrying value in the accounts.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in future periods in which the temporary difference will reverse, based on tax rates and laws enacted or substantively enacted at the year end.

Deferred tax assets are recognised to the extent that it is probable that the future taxable profit, against which the deductible temporary differences can be utilised, will be available.

Deferred tax is provided, or an asset recognised, on taxable temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Current tax assets and liabilities are measured at the amounts expected to be recovered from, or paid to, the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at year end.

3.7 Foreign currencies

Transactions in foreign currencies are translated to the Company's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Foreign exchange differences arising on translation are recognised in the profit and loss account.

Year ended 31 October 2021

3. ACCOUNTING POLICIES (continued)

3.8 Tangible assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Repairs and maintenance are charged to profit or loss during the period in which they are incurred.

3.10 Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Kiosks and other vending equipment:

Maximum of 10 years straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

3.11 Impairment of fixed assets

At each reporting date intangible and tangible fixed assets are reviewed to determine if there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of the asset is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit and loss

3.12 Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting ail of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as an interest expense in the profit and loss account.

Trade and other debtors / creditors

Trade and other creditors are initially recognised at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.

Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of less than 24 hours. Cash equivalents are highly liquid investments that mature in no more than 3 months from date of acquisition and are readily convertible to known amounts of cash with insignificant risk of change in value.
