## NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 APRIL 2005

#### 1 Accounting policies

#### 1.1 Basis of preparation

The financial statements are prepared under the historical cost convention.

#### 1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

#### 1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Leasehold land and buildings

over the term of the lease

Plant and machinery

15% - 25% reducing balance

Fixtures, fittings & equipment

25% reducing balance

Motor vehicles

25% reducing balance

All assets are depreciated from the date they are brought into use.

#### 1.4 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

#### 1.5 Stock

Stock is valued at the lower of cost and net realisable value.

#### 1.6 Deferred taxation

Deferred tax is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.

#### 1.7 Foreign currency translation

Transactions in foreign currency are translated at rate ruling at date of transaction.
